

Business Continuity Communications Training Course

Professional Development Training Course Outline

Category	General Training	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's volatile, uncertain, complex, and ambiguous (VUCA) business environment, Business Continuity Communications (BCC) has become a mission-critical capability for organizations seeking operational resilience, reputational protection, and rapid crisis recovery. Effective communication during disruptions whether cyberattacks, natural disasters, supply chain failures, or reputational crises determines how quickly an organization stabilizes operations and restores stakeholder trust. Business Continuity Communications Training Course is designed to equip professionals with advanced skills in crisis communication strategy, emergency communication planning, incident response messaging, and stakeholder engagement frameworks.

The program focuses on building a robust Business Continuity Management System (BCMS) communication layer aligned with global standards such as ISO 22301, integrating risk communication, disaster recovery coordination, and real-time crisis messaging systems. Participants will learn how to design, implement, and execute communication protocols that ensure clarity, speed, accuracy, and consistency across internal teams, customers, regulators, and the public during disruptions. Emphasis is placed on digital-first communication tools, media handling, and leadership messaging under pressure.

Programme Curriculum

Business Continuity Communications Training Course

Introduction

In today's volatile, uncertain, complex, and ambiguous (VUCA) business environment, Business Continuity Communications (BCC) has become a mission-critical capability for organizations seeking operational resilience, reputational protection, and rapid crisis recovery. Effective communication during disruptions whether cyberattacks, natural disasters, supply chain failures, or reputational crises determines how quickly an

organization stabilizes operations and restores stakeholder trust. Business Continuity Communications Training Course is designed to equip professionals with advanced skills in crisis communication strategy, emergency communication planning, incident response messaging, and stakeholder engagement frameworks.

The program focuses on building a robust Business Continuity Management System (BCMS) communication layer aligned with global standards such as ISO 22301, integrating risk communication, disaster recovery coordination, and real-time crisis messaging systems. Participants will learn how to design, implement, and execute communication protocols that ensure clarity, speed, accuracy, and consistency across internal teams, customers, regulators, and the public during disruptions. Emphasis is placed on digital-first communication tools, media handling, and leadership messaging under pressure.
