Certification Prep: Oracle Fusion Financials Associate Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

The Oracle Fusion Financials Associate Certification Prep training course is designed to provide participants with in-depth knowledge and hands-on expertise in Oracle Fusion Financials Cloud applications. This comprehensive program covers key aspects of Oracle Financials, including financial management, accounting, procurement, and reporting. The training is structured to help professionals gain proficiency in Oracle Fusion Cloud Financials and is tailored for individuals looking to achieve Oracle Certification in Fusion Financials. The course prepares learners to take the Oracle Fusion Financials Associate certification exam by offering real-world case studies, interactive learning experiences, and practical application of key Oracle Financials concepts.

Our Oracle Fusion Financials Associate course equips professionals with the necessary skills to handle complex financial operations in the cloud, leveraging the power of Oracle Fusion Financials for enterprise resource planning (ERP). The course is built around critical financial concepts and aims to provide a deep understanding of cloud-based financial management solutions. By completing this training, learners will be ready to optimize financial processes, improve data analysis, and support efficient business decision-making using Oracle's cloud-based ERP solutions. This course integrates the latest industry trends to ensure students are well-versed in modern financial systems and cloud technologies.

Target Audience

1. Financial professionals seeking to upgrade their skills with Oracle Fusion Financials Cloud.
2. Oracle Cloud ERP users interested in expanding their knowledge of financial applications.
3. Professionals aiming to obtain the Oracle Fusion Financials Associate certification.
4. Consultants and project managers looking to implement Oracle Fusion Financials in organizations.
5. Business analysts interested in analyzing and improving financial processes using Oracle Cloud solutions.
6. Accounting professionals who wish to leverage Oracle Financials for effective decision-making and reporting.
7. IT professionals involved in the deployment and management of Oracle Cloud Financials.

8. Graduates or students aspiring to start a career in financial technology with a focus on Oracle Financials Cloud.

Course Modules

Module 1: Introduction to Oracle Fusion Financials

- Overview of Oracle Cloud Financials suite
- Understanding Oracle Fusion architecture and functionalities
- Key differences between on-premise ERP and cloud-based solutions
- Introduction to Oracle Financials Cloud services
- Case Study: Transitioning from legacy ERP to Oracle Fusion Cloud Financials

Module 2: General Ledger Setup and Management

- Setting up and configuring General Ledger in Oracle Fusion
- Managing accounting periods and financial calendars
- Journal entries and reconciliation processes
- Financial reporting setup in Oracle Cloud
- Case Study: Automating month-end close using Oracle Fusion General Ledger

Module 3: Oracle Fusion Payables and Receivables

- Configuring Payables and Receivables modules in Oracle Fusion
- Understanding invoice processing, payments, and collections
- Managing vendor and customer accounts
- Automating reconciliation of payables and receivables
- Case Study: Streamlining vendor payments in Oracle Fusion Payables

Module 4: Oracle Fusion Procurement and Financials Integration

- Integrating procurement and financials for seamless financial management
- Managing purchase orders and invoices in Oracle Fusion
- Optimizing procurement-to-payment workflows
- Role of procurement analytics in financial decision-making
- Case Study: Linking procurement transactions to financial ledgers

Module 5: Oracle Fusion Fixed Assets Management

- Configuring Fixed Assets module in Oracle Fusion Financials
- Managing asset acquisitions, depreciation, and disposals
- Integration of asset management with the general ledger
- Performing asset reconciliations and reporting
- Case Study: Implementing asset tracking for improved financial visibility

Module 6: Oracle Fusion Financial Reporting and Analysis

- Creating financial reports and statements in Oracle Fusion
- Leveraging real-time financial analytics and dashboards
- Using BI (Business Intelligence) tools for data analysis
- Building custom reports and templates in Oracle Fusion Financials
- Case Study: Enhancing decision-making with Oracle Fusion Financial reporting

Module 7: Budgeting and Forecasting in Oracle Fusion Financials

- Configuring and managing budgets in Oracle Cloud
- Setting up budgetary control rules and limits
- Best practices for forecasting and budget monitoring
- Handling variance analysis and budget revisions
- Case Study: Implementing effective budgeting strategies with Oracle Fusion Financials

Module 8: Taxation Management in Oracle Fusion Financials

- Setting up tax rules and rates in Oracle Fusion
- Managing global tax compliance and reporting
- Configuring tax jurisdictions and tax codes
- Leveraging Oracle Fusion for indirect tax management
- Case Study: Simplifying tax compliance using Oracle Fusion Financials

Module 9: Security and User Management in Oracle Fusion Financials

- Managing user roles, permissions, and access controls
- Configuring security profiles for financial modules
- Best practices for data protection and compliance
- Understanding audit trail functionality in Oracle Cloud
- Case Study: Managing role-based access for financial data security

Module 10: Multi-Currency and Multi-Ledger Management

- Configuring multi-currency transactions in Oracle Fusion
- Managing multiple ledgers and reporting currencies
- Handling foreign exchange and currency conversions
- Ensuring accurate multi-currency financial reporting
- Case Study: Optimizing multi-currency financial processes in Oracle Fusion

Module 11: Oracle Fusion Financials Cloud Security and Compliance

- Understanding financial compliance requirements in the cloud
- Managing regulatory controls and reporting for Oracle Cloud Financials
- Protecting financial data in the cloud through encryption and access controls
- Ensuring auditability and transparency in financial operations
- Case Study: Securing financial data for global compliance in Oracle Fusion

Module 12: Financial Close and Reconciliation in Oracle Fusion

- Managing the financial close process using Oracle Fusion
- Configuring and automating account reconciliations
- Best practices for effective month-end closing in the cloud
- Handling discrepancies and corrections during financial close
- Case Study: Automating financial reconciliation for faster close cycles

Module 13: Financial Integration with Other Oracle Cloud Modules

- Integrating Oracle Financials with Supply Chain, HR, and Procurement modules
- Seamless data flow between different Oracle Cloud applications

- Configuring cross-module financial processes and workflows
- Leveraging integration for real-time decision-making
- Case Study: Optimizing cross-module integration for financial visibility

Module 14: Reporting and Analytics with Oracle Fusion Financials

- Using Oracle Analytics Cloud (OAC) for financial insights
- Building custom financial reports using Oracle Fusion tools
- Understanding KPI tracking and financial performance metrics
- Leveraging cloud-based reporting for strategic decision-making
- Case Study: Creating an executive-level financial dashboard in Oracle Fusion

Module 15: Oracle Fusion Financials Cloud Certification Exam Preparation

- Exam structure and topics covered in the certification
- Study tips and resources for Oracle Fusion Financials Associate exam
- Mock exam and review session
- Hands-on practice with Oracle Cloud Financials
- Case Study: Real-life scenarios and solutions for Oracle Fusion certification

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
