Community Health Systems Training Course

Professional Development Training Course Outline

Category	Public Health	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Community Health Systems (CHS) play a pivotal role in strengthening primary healthcare delivery, population health management, preventive care, and equitable health access across urban and rural settings. Community Health Systems Training Course is designed to build strong competencies in community-based healthcare models, digital health integration, epidemiology, and sustainable health system strengthening, enabling professionals to respond effectively to evolving global health challenges.

With rising demand for public health resilience, telehealth expansion, health data analytics, and decentralized care systems, Community Health Systems are becoming the backbone of modern healthcare infrastructure. This program empowers learners with practical skills in health program implementation, community outreach strategies, disease surveillance, and health equity frameworks, aligned with global health standards and SDG 3 objectives.

Programme Curriculum

Community Health Systems Training Course

Introduction

Community Health Systems (CHS) play a pivotal role in strengthening primary healthcare delivery, population health management, preventive care, and equitable health access across urban and rural settings. Community Health Systems Training Course is designed to build strong competencies in community-based healthcare models, digital health integration, epidemiology, and sustainable health system strengthening, enabling professionals to respond effectively to evolving global health challenges.

With rising demand for public health resilience, telehealth expansion, health data analytics, and decentralized care systems, Community Health Systems are becoming the backbone of modern healthcare infrastructure. This program empowers learners with practical skills in health program implementation, community outreach strategies, disease surveillance, and health equity frameworks, aligned with global health standards and SDG 3

objectives.

Course Duration

5 days

Course Objectives

1. Understand fundamentals of Community Health Systems and primary healthcare models
2. Develop skills in community health assessment and needs analysis
3. Implement preventive healthcare and health promotion strategies
4. Strengthen knowledge of epidemiology and disease surveillance systems
5. Apply digital health and telemedicine solutions in community settings
6. Design community-based intervention programs
7. Improve maternal and child health outcomes through targeted strategies
8. Enhance vaccination and immunization program delivery
9. Build capacity in health data management and analytics
10. Strengthen health communication and behavioral change strategies
11. Promote health equity and social determinants of health awareness
12. Develop emergency preparedness and outbreak response capabilities
13. Integrate sustainable and scalable community health models

Target Audience

- Public Health Professionals
- Community Health Workers
- NGO & Development Sector Staff
- Healthcare Administrators
- Medical & Nursing Students
- Epidemiologists & Researchers
- Government Health Officials
- Telehealth & Digital Health Practitioners

Course Modules

Module 1: Foundations of Community Health Systems

- Structure and function of CHS
- Primary healthcare frameworks
- Global health system comparisons
- Health policy and governance
- Case Study: Rural primary healthcare transformation model

Module 2: Community Health Assessment

- Population health profiling
- Data collection methods
- Risk factor identification
- Community mapping tools
- Case Study: Urban slum health assessment project

Module 3: Epidemiology & Disease Surveillance

- Disease tracking systems
- Outbreak investigation methods
- Real-time surveillance tools
- Reporting mechanisms
- Case Study: COVID-19 community surveillance model

Module 4: Preventive & Promotive Healthcare

- Immunization strategies
- Health education campaigns
- Nutrition and lifestyle interventions
- Chronic disease prevention
- Case Study: National vaccination drive success framework

Module 5: Digital Health & Telemedicine

- Telehealth platforms
- Mobile health (mHealth) apps
- Remote patient monitoring
- AI in community health
- Case Study: Telemedicine rollout in remote villages

Module 6: Maternal & Child Health Programs

- Antenatal and postnatal care
- Infant nutrition strategies
- Safe delivery systems
- Child immunization tracking
- Case Study: Maternal mortality reduction program

Module 7: Health Communication & Behavior Change

- Risk communication strategies
- Community engagement models
- Social behavior theories
- Public awareness campaigns
- Case Study: HIV awareness community outreach program

Module 8: Health Systems Strengthening & Emergency Response

- Health infrastructure development
- Emergency preparedness planning
- Disaster response coordination
- Resource allocation systems
- Case Study: Earthquake emergency health response system

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.

- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
