Course Introduction

Debt Management Performance Assessment (DeMPA) Training Course is a comprehensive program designed to strengthen the capacity of governments, financial institutions, and policymakers in assessing and managing sovereign debt. With a strong focus on public financial management, fiscal sustainability, debt transparency, and risk management, this training equips participants with cutting-edge knowledge, best practices, and practical tools to evaluate debt management institutions effectively. Through interactive sessions, real-world case studies, and analytical frameworks, participants will develop a deep understanding of debt governance, strategy formulation, and performance monitoring.

In today’s dynamic global financial environment, sovereign debt management plays a pivotal role in ensuring macroeconomic stability and achieving sustainable growth. The DeMPA framework provides a robust methodology for assessing institutional strengths and weaknesses across core areas such as debt reporting, borrowing practices, cash flow forecasting, audit, and debt sustainability analysis. This course not only enhances participants’ technical expertise but also enables them to design and implement effective reforms for improved debt performance, fiscal discipline, and financial resilience.
