E-Governance and PFM Accountability Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

E-Governance and Public Financial Management (PFM) Accountability are crucial pillars in driving transparency, efficiency, and service delivery in public institutions. With rapid digital transformation, governments are increasingly adopting digital platforms, data-driven decision-making, and advanced accountability frameworks to ensure citizen-centric governance and effective management of public resources. E-Governance and PFM Accountability Training Course empowers participants with the latest tools, knowledge, and global best practices in digital governance, fiscal accountability, e-transparency, and performance monitoring systems to strengthen institutional credibility and governance effectiveness.

This comprehensive course blends technology-driven governance, financial accountability frameworks, ICT-enabled service delivery, public sector reforms, and data analytics for fiscal oversight. Participants will gain hands-on insights into e-governance strategies, digital financial management systems, open government initiatives, AI-driven policy analysis, and anti-corruption measures. By leveraging case studies, global benchmarks, and practical simulations, the course equips professionals with the expertise to implement modern PFM systems that foster trust, innovation, and sustainable development.

Programme Curriculum

E-Governance and PFM Accountability Training Course

Introduction

E-Governance and Public Financial Management (PFM) Accountability are crucial pillars in driving transparency, efficiency, and service delivery in public institutions. With rapid digital transformation, governments are increasingly adopting digital platforms, data-driven decision-making, and advanced accountability frameworks to ensure citizen-centric

governance and effective management of public resources. E-Governance and PFM Accountability Training Course empowers participants with the latest tools, knowledge, and global best practices in digital governance, fiscal accountability, e-transparency, and performance monitoring systems to strengthen institutional credibility and governance effectiveness.

This comprehensive course blends technology-driven governance, financial accountability frameworks, ICT-enabled service delivery, public sector reforms, and data analytics for fiscal oversight. Participants will gain hands-on insights into e-governance strategies, digital financial management systems, open government initiatives, AI-driven policy analysis, and anti-corruption measures. By leveraging case studies, global benchmarks, and practical simulations, the course equips professionals with the expertise to implement modern PFM systems that foster trust, innovation, and sustainable development.

Course Objectives

1. Understand the principles of E-Governance frameworks and digital transformation.
2. Apply PFM accountability systems for transparency and efficiency.
3. Implement ICT tools for financial reporting and monitoring.
4. Enhance budget planning and resource allocation through digital tools.
5. Analyze risk management and compliance in fiscal governance.
6. Strengthen citizen engagement through digital service delivery.
7. Apply data analytics in PFM decision-making.
8. Understand anti-corruption mechanisms using e-governance platforms.
9. Integrate performance-based budgeting techniques.
10. Enhance institutional accountability with digital audit systems.
11. Apply global best practices in digital governance and PFM reform.
12. Manage change and capacity building in e-governance systems.
13. Design and implement sustainable PFM accountability strategies.

Target Audiences

1. Government officials and policymakers
2. Public sector finance managers
3. ICT managers in governance institutions
4. Auditors and compliance officers
5. Development partners and donor agencies
6. Civil society and accountability organizations
7. Capacity-building and training institutions
8. Researchers and governance consultants

Course Duration: 5 days

Course Modules

Module 1: Foundations of E-Governance and PFM

- Principles of e-governance in public administration
- Overview of PFM accountability frameworks
- Digital transformation in governance
- Benefits of ICT integration in fiscal management
- Emerging global trends in PFM reforms
- **Case Study: India’s Digital India and PFM initiatives**

Module 2: ICT Tools for Fiscal Transparency

- Digital financial reporting systems

- Data-driven monitoring and evaluation
- e-Procurement and digital payments
- Enhancing fiscal oversight with technology
- Transparency in public service delivery
- **Case Study: Kenya's IFMIS (Integrated Financial Management Information System)**

Module 3: Budget Planning and Resource Allocation

- ICT-enabled budget planning tools
- Performance-based budgeting systems
- Fiscal responsibility and discipline
- Tracking expenditures through e-systems
- Linking budgets to development outcomes
- **Case Study: South Korea's performance-based budgeting model**

Module 4: Risk Management and Compliance

- Risk assessment in financial management
- Internal controls in digital systems
- Legal and regulatory frameworks
- Managing compliance in governance reforms
- Cybersecurity in e-governance platforms
- **Case Study: Estonia's e-Governance security framework**

Module 5: Citizen Engagement and Open Governance

- Role of digital platforms in citizen participation
- Open government data initiatives
- Enhancing service delivery through ICT
- Citizen-centric accountability models
- Strengthening trust in governance institutions
- **Case Study: Brazil's open government transparency portal**

Module 6: Data Analytics for PFM

- Importance of big data in governance
- Tools for financial data visualization
- Predictive analytics for fiscal planning
- Integrating AI in policy development
- Data governance and ethical considerations
- **Case Study: Singapore's Smart Nation and data analytics in PFM**

Module 7: Anti-Corruption and Accountability Mechanisms

- Digital platforms to curb corruption
- e-Audit and electronic monitoring tools
- Enhancing transparency in procurement
- Strengthening whistleblower protection systems
- International anti-corruption frameworks
- **Case Study: Rwanda's e-procurement anti-corruption system**

Module 8: Institutional Reforms and Capacity Building

- Governance reforms in the digital age
- Change management strategies
- Building institutional capacity for PFM reforms

- Training and upskilling public officials
- Scaling sustainable digital governance practices
- **Case Study: Ghana's PFM capacity-building initiatives**

Training Methodology

- Interactive lectures and expert-led presentations
- Hands-on simulations with digital governance tools
- Group discussions and peer-to-peer learning
- Real-world case study analysis and lessons learned
- Practical exercises on ICT-based PFM systems
