ESG Metrics and Reporting Governance Training Course

Professional Development Training Course Outline

Category	Corporate Governance	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

The evolving global business landscape emphasizes environmental, social, and governance (ESG) performance as a critical driver for sustainable growth, stakeholder trust, and regulatory compliance. Organizations are increasingly held accountable for their ESG practices, requiring structured frameworks, accurate reporting, and robust governance mechanisms. ESG Metrics and Reporting Governance Training Course equips professionals with advanced knowledge and practical skills to develop, implement, and monitor ESG reporting strategies aligned with international standards, corporate objectives, and stakeholder expectations. Participants will gain insight into ESG data collection, performance metrics, reporting methodologies, and governance frameworks essential for maintaining transparency, accountability, and long-term value creation.

In addition, this course addresses the latest trends, tools, and methodologies in ESG reporting, emphasizing measurable outcomes, risk assessment, and compliance with emerging global regulations. Through case studies, real-world applications, and interactive learning, participants will understand the integration of ESG metrics into corporate strategy, the importance of stakeholder engagement, and best practices for reporting governance. This training ensures that professionals are well-prepared to lead ESG initiatives, enhance corporate reputation, and drive sustainable business decisions.

Programme Curriculum

ESG Metrics and Reporting Governance Training Course

Introduction

The evolving global business landscape emphasizes environmental, social, and governance (ESG) performance as a critical driver for sustainable growth, stakeholder trust, and regulatory compliance. Organizations are increasingly held accountable for their ESG practices, requiring structured frameworks,

accurate reporting, and robust governance mechanisms. ESG Metrics and Reporting Governance Training Course equips professionals with advanced knowledge and practical skills to develop, implement, and monitor ESG reporting strategies aligned with international standards, corporate objectives, and stakeholder expectations. Participants will gain insight into ESG data collection, performance metrics, reporting methodologies, and governance frameworks essential for maintaining transparency, accountability, and long-term value creation.

In addition, this course addresses the latest trends, tools, and methodologies in ESG reporting, emphasizing measurable outcomes, risk assessment, and compliance with emerging global regulations. Through case studies, real-world applications, and interactive learning, participants will understand the integration of ESG metrics into corporate strategy, the importance of stakeholder engagement, and best practices for reporting governance. This training ensures that professionals are well-prepared to lead ESG initiatives, enhance corporate reputation, and drive sustainable business decisions.
