Financial Planning for Public Health Emergencies Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public health emergencies, such as pandemics, epidemics, and natural disasters, highlight the urgent need for strategic financial planning, resource mobilization, and budgetary resilience. Financial Planning for Public Health Emergencies Training Course equips professionals with cutting-edge tools to manage financial risks, design emergency preparedness budgets, and implement sustainable financing strategies for effective crisis response. With strong emphasis on cost-effectiveness analysis, donor engagement, and rapid funding mechanisms, participants will gain the skills to strengthen national and organizational readiness against unforeseen health crises.

Through real-world case studies, scenario-based learning, and evidence-driven financial frameworks, this program enhances participants' abilities to align financial governance with public health priorities. The course empowers decision-makers, policymakers, and practitioners to bridge the gap between financial systems and emergency health operations, ensuring timely resource allocation, transparency, and accountability in combating public health emergencies globally.
