Fraud Prevention and Internal Controls Training Course

Professional Development Training Course Outline

Category	Trade Unions	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Fraud Prevention and Internal Controls is a critical discipline for modern organizations aiming to strengthen financial integrity, risk governance, compliance frameworks, and operational resilience. In an era of increasing digital fraud, cyber-enabled financial crimes, insider threats, and regulatory scrutiny, organizations must implement robust internal control systems that detect, deter, and prevent fraudulent activities. Fraud Prevention and Internal Controls Training Course equips professionals with advanced knowledge of fraud risk management, audit readiness, compliance standards, forensic accounting, and governance controls to safeguard organizational assets.

This program focuses on building a strong foundation in fraud detection techniques, internal audit mechanisms, segregation of duties, risk assessment models, and control environment optimization. Participants will learn how to implement globally recognized frameworks such as COSO, ISO 31000, SOX compliance structures, and data-driven fraud analytics. The course also emphasizes real-world application through case studies, enabling learners to identify vulnerabilities, strengthen controls, and develop proactive fraud prevention strategies in both traditional and digital business environments.

Programme Curriculum

Fraud Prevention and Internal Controls Training Course

Introduction

Fraud Prevention and Internal Controls is a critical discipline for modern organizations aiming to strengthen financial integrity, risk governance, compliance frameworks, and operational resilience. In an era of increasing digital fraud, cyber-enabled financial crimes, insider threats, and regulatory scrutiny, organizations must implement robust internal control systems that detect, deter, and prevent fraudulent activities. Fraud Prevention and Internal Controls Training Course equips professionals with advanced knowledge of fraud risk

management, audit readiness, compliance standards, forensic accounting, and governance controls to safeguard organizational assets.

This program focuses on building a strong foundation in fraud detection techniques, internal audit mechanisms, segregation of duties, risk assessment models, and control environment optimization. Participants will learn how to implement globally recognized frameworks such as COSO, ISO 31000, SOX compliance structures, and data-driven fraud analytics. The course also emphasizes real-world application through case studies, enabling learners to identify vulnerabilities, strengthen controls, and develop proactive fraud prevention strategies in both traditional and digital business environments.

- Designing effective control systems

Module 3: Fraud Risk Assessment

- Risk identification techniques
- Fraud vulnerability assessment models
- Risk scoring and prioritization
- **Case Study:** Banking sector fraud risk mapping
- Risk mitigation planning

Module 4: Financial Statement Fraud

- Revenue manipulation techniques
- Expense misreporting detection
- Asset overstatement fraud
- **Case Study:** WorldCom accounting fraud
- Analytical review procedures

Module 5: Cyber Fraud & Digital Risks

- Phishing and identity theft
- Online banking fraud techniques
- Malware and ransomware attacks
- **Case Study**: Equifax data breach
- Cybersecurity control integration

Module 6: Procurement Fraud

- Bid rigging and vendor collusion
- Invoice manipulation methods
- Conflict of interest detection
- **Case Study:** Public sector procurement fraud
- Vendor risk management controls

Module 7: Payroll Fraud

- Ghost employees detection
- Overtime manipulation
- Payroll system vulnerabilities
- **Case Study**: Corporate payroll fraud incident
- Automated payroll controls

Module 8: Asset Misappropriation

- Theft of cash and inventory
- Asset tracking systems
- Internal theft detection tools
- **Case Study:** Retail inventory shrinkage fraud

- Physical security controls

Module 9: Audit Techniques

- Internal audit planning
- Sampling and testing methods
- Continuous auditing systems
- **Case Study:** Audit failure in financial institutions
- Audit reporting standards

Module 10: Data Analytics in Fraud Detection

- AI-based fraud detection systems
- Predictive analytics for anomalies
- Data mining techniques
- **Case Study:** Credit card fraud detection models
- Dashboard reporting tools

Module 11: Compliance & Regulatory Frameworks

- SOX compliance requirements
- Anti-money laundering (AML) regulations
- GDPR compliance basics
- **Case Study:** Banking regulatory penalties
- Compliance monitoring systems

Module 12: Forensic Accounting

- Investigation methodologies
- Evidence collection techniques
- Financial reconstruction methods
- **Case Study:** Corporate embezzlement case
- Legal reporting procedures

Module 13: Ethics & Corporate Governance

- Ethical decision-making frameworks
- Whistleblower protection systems
- Corporate governance principles
- **Case Study:** Siemens bribery scandal
- Integrity and accountability systems

Module 14: Fraud Response & Investigation

- Incident response planning
- Fraud reporting mechanisms
- Investigation team roles
- **Case Study:** Insider trading investigation
- Crisis management strategies

Module 15: Building Fraud-Resistant Organizations

- Designing fraud-resistant systems

- Continuous monitoring controls
- Employee awareness training
- **Case Study**: Amazon fraud prevention systems
- Organizational resilience planning

Training Methodology

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
