Gender-Responsive Transport Safety Planning Training Course

Professional Development Training Course Outline

Category	Traffic Management & Road Safety	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Urban mobility and transport systems profoundly shape the lives of all citizens, yet conventional transport planning often overlooks the distinct safety needs and experiences of different genders. Gender-responsive transport safety planning ensures that cities and communities design inclusive, secure, and equitable mobility solutions. By integrating gender perspectives into transport policies, infrastructure, and safety measures, stakeholders can enhance access, reduce risks, and foster social inclusion.

Gender-Responsive Transport Safety Planning Training Course empowers participants with practical tools, frameworks, and global best practices to mainstream gender considerations into transport safety planning. Through interactive case studies, data-driven approaches, and participatory planning techniques, attendees will develop strategies to create safer, more inclusive transport networks. Emphasis is placed on actionable solutions, policy integration, and sustainable urban mobility practices.

Programme Curriculum

Gender-Responsive Transport Safety Planning Training Course

Introduction

Urban mobility and transport systems profoundly shape the lives of all citizens, yet conventional transport planning often overlooks the distinct safety needs and experiences of different genders. Gender-responsive transport safety planning ensures that cities and communities design inclusive, secure, and equitable mobility solutions. By integrating gender perspectives into transport policies, infrastructure, and safety measures, stakeholders can enhance access, reduce risks, and foster social inclusion.

Gender-Responsive Transport Safety Planning Training Course empowers participants with practical tools, frameworks, and global best practices to mainstream gender considerations into transport safety planning. Through interactive case studies, data-driven approaches, and participatory planning techniques, attendees will develop strategies to create safer, more inclusive transport networks. Emphasis is placed on actionable solutions, policy integration, and sustainable urban mobility practices.

Course Duration

5 days

Course Objectives

1. Understand the principles of gender-responsive transport planning
2. Analyze gender-specific mobility patterns and safety risks
3. Integrate equity-focused design solutions in transport systems
4. Evaluate urban transport safety data through a gender lens
5. Develop inclusive transport policies and regulations
6. Apply gender mainstreaming strategies in mobility projects
7. Identify best practices in pedestrian and public transport safety
8. Enhance community engagement and participatory planning
9. Address intersectional vulnerabilities in urban transport
10. Implement sustainable and smart mobility solutions
11. Measure transport safety outcomes using gender indicators
12. Foster public-private partnerships for inclusive mobility
13. Promote innovative technologies for safe and inclusive transport

Target Audience

1. Urban planners and transport engineers
2. City policymakers and government officials
3. Road safety and mobility officers
4. Gender and social inclusion specialists
5. NGOs and civil society organizations
6. Public transport operators and managers
7. Researchers and academics in transport and urban studies
8. Smart mobility and transport technology developers

Course Modules

Module 1: Introduction to Gender-Responsive Transport Planning

- Definition and principles of gender-responsive transport
- Global trends and policies in gender-sensitive mobility
- Gender differences in transport safety and access
- Case Study: Women’s safety in public transport in Bogotá, Colombia
- Tools for integrating gender perspectives in transport planning

Module 2: Analyzing Gender-Specific Mobility Patterns

- Understanding commuting patterns of different genders
- Identifying peak-risk zones and vulnerable groups
- Surveys, data collection, and analysis techniques

- Case Study: Gendered mobility study in Nairobi, Kenya
- Mapping mobility gaps for equitable transport solutions

Module 3: Urban Transport Safety Risk Assessment

- Gender-based safety audits and risk mapping
- Identifying harassment hotspots and accident-prone zones
- Integrating community feedback in risk assessments
- Case Study: Safe routes for women in Delhi, India
- Developing action plans for risk mitigation

Module 4: Inclusive Transport Design Solutions

- Designing safe pedestrian and cycling infrastructure
- Enhancing street lighting and surveillance
- Gender-responsive public transport vehicles and stations
- Case Study: Women-friendly bus rapid transit in Mexico City
- Guidelines for universal accessibility and safety

Module 5: Policy and Regulatory Frameworks

- Gender mainstreaming in transport policies
- International frameworks and standards
- Legal and institutional mechanisms for safe mobility
- Case Study: Gender-inclusive policy reform in Stockholm, Sweden
- Advocacy strategies for inclusive transport regulations

Module 6: Community Engagement & Participatory Planning

- Conducting focus groups and workshops with diverse groups
- Techniques for stakeholder engagement in urban mobility
- Co-designing safety measures with local communities
- Case Study: Participatory transport planning in Cape Town, South Africa
- Monitoring and feedback mechanisms for continuous improvement

Module 7: Technology and Innovation in Safe Mobility

- Mobile apps and ICT solutions for gendered safety alerts
- Data-driven transport management systems
- Smart infrastructure for safer pedestrian and transit areas
- Case Study: Smart transport safety app in Singapore
- Integrating AI and IoT for inclusive urban mobility

Module 8: Monitoring, Evaluation, and Impact Assessment

- Gender-sensitive indicators for transport safety
- Methods to track performance and outcomes
- Reporting and communication strategies
- Case Study: Evaluating safe transport interventions in Melbourne, Australia
- Continuous improvement through adaptive strategies

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
