Infor LN / CloudSuite Intro for Implementers Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

The Infor LN / CloudSuite Intro for Implementers training course is designed to empower professionals with hands-on expertise in cloud ERP solutions, digital transformation, and smart manufacturing processes. Infor LN / CloudSuite Intro for Implementers Training Course equips implementers with practical skills to streamline supply chain management, financial operations, and production planning using Infor LN's advanced enterprise resource planning (ERP) capabilities. Participants will gain a solid understanding of cloud-based deployment, system integration, and real-time analytics, enabling organizations to accelerate operational efficiency and achieve digital business transformation.

Through a combination of interactive workshops, scenario-based learning, and real-world case studies, this course ensures that implementers are fully prepared to manage complex ERP implementations and optimize business process automation. Participants will explore best practices in configuration management, data migration, and process optimization, while leveraging Infor LN's modular architecture for scalable solutions. By the end of the training, attendees will be proficient in cloud ERP strategy, technical deployment, and continuous process improvement, ready to drive measurable results for organizations across manufacturing, distribution, and service industries.

Programme Curriculum

Infor LN / CloudSuite Intro for Implementers Training Course

Course Introduction

The Infor LN / CloudSuite Intro for Implementers training course is designed to empower professionals with hands-on expertise in cloud ERP solutions, digital transformation, and smart manufacturing processes. Infor LN / CloudSuite Intro for Implementers Training Course equips implementers with practical skills to streamline

supply chain management, financial operations, and production planning using Infor LN's advanced enterprise resource planning (ERP) capabilities. Participants will gain a solid understanding of cloud-based deployment, system integration, and real-time analytics, enabling organizations to accelerate operational efficiency and achieve digital business transformation.

Through a combination of interactive workshops, scenario-based learning, and real-world case studies, this course ensures that implementers are fully prepared to manage complex ERP implementations and optimize business process automation. Participants will explore best practices in configuration management, data migration, and process optimization, while leveraging Infor LN's modular architecture for scalable solutions. By the end of the training, attendees will be proficient in cloud ERP strategy, technical deployment, and continuous process improvement, ready to drive measurable results for organizations across manufacturing, distribution, and service industries.

Course Duration

5 days

Course Objectives

1. Master the fundamentals of Infor LN / CloudSuite architecture.
2. Understand ERP cloud deployment strategies and best practices.
3. Gain hands-on skills in module configuration and setup.
4. Explore supply chain management optimization using Infor LN.
5. Develop expertise in financial management processes and automation.
6. Learn production planning and scheduling techniques in ERP.
7. Implement data migration strategies with minimal disruption.
8. Analyze real-time analytics for decision-making.
9. Execute business process optimization using ERP tools.
10. Understand system integration and third-party interfaces.
11. Apply project management practices for ERP implementation.
12. Explore case studies on successful Infor LN deployments.
13. Enhance skills in continuous process improvement and ROI measurement.

Target Audience

1. ERP Implementers
2. IT Consultants
3. Business Analysts
4. Project Managers
5. Solution Architects
6. Supply Chain Professionals
7. Finance and Operations Managers
8. Manufacturing and Distribution Leaders

Course Modules

Module 1: Introduction to Infor LN / CloudSuite

- Overview of Infor LN architecture
- Key features and benefits for cloud ERP
- Industry-specific capabilities

- Navigating the user interface and dashboards
- Case Study: ERP adoption in a mid-size manufacturing firm

Module 2: Cloud Deployment & Infrastructure

- Cloud deployment models
- Infrastructure requirements and best practices
- Security and compliance in cloud ERP
- System performance and scalability
- Case Study: Migrating from on-premise to Infor CloudSuite

Module 3: Core Modules Overview

- Financial Management setup and workflow
- Supply Chain Management overview
- Production Planning module essentials
- Procurement & Inventory Management
- Case Study: Optimizing inventory in a distribution company

Module 4: Configuration & Customization

- Module setup and configuration steps
- Workflow automation and business rules
- Role-based access control
- Customization best practices
- Case Study: Customizing ERP for a multinational manufacturer

Module 5: Data Migration & Integration

- Data extraction, transformation, and loading (ETL)
- Mapping legacy data to Infor LN
- Integration with third-party applications
- Error handling and validation techniques
- Case Study: Seamless integration with legacy systems

Module 6: Advanced Analytics & Reporting

- Real-time dashboards and KPIs
- Predictive analytics and trend analysis
- Financial and operational reporting
- Business intelligence tools
- Case Study: Using analytics for supply chain optimization

Module 7: Business Process Optimization

- Lean manufacturing principles in ERP
- Process automation and workflow improvement
- Bottleneck identification and resolution
- Best practices for efficiency and compliance
- Case Study: Reducing production cycle time using Infor LN

Module 8: Implementation Methodology & Best Practices

- Project planning and ERP rollout strategy
- Risk management and mitigation
- Change management techniques
- Post-implementation support
- Case Study: Successful global ERP deployment

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price

23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
