International Health Policy Training Course

Professional Development Training Course Outline

Category	Public Health	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

International Health Policy is a rapidly evolving field shaping the future of global healthcare systems, universal health coverage (UHC), and health equity across nations. International Health Policy Training Course equips participants with cutting-edge knowledge on global health governance, policy analysis, health systems strengthening, and evidence-based decision-making. It integrates contemporary frameworks such as the Sustainable Development Goals (SDGs), WHO global health strategies, and universal health coverage reforms, ensuring learners understand how international institutions influence national health policies.

In an era marked by pandemics, climate-related health risks, and digital health transformation, professionals must master health policy innovation, global health diplomacy, financing mechanisms, and regulatory frameworks. This course delivers a comprehensive blend of theory and practice, enabling participants to critically assess and design impactful health policies. Through real-world case studies from WHO, World Bank, and national health systems, learners will gain actionable insights into healthcare equity, global health security, and policy implementation strategies.
