Multi-Stakeholder Evaluations Training Course

Professional Development Training Course Outline

Category	Monitoring and Evaluation	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Multi-stakeholder evaluations are at the forefront of contemporary monitoring and evaluation (M&E) practices, enabling organizations to assess programs and projects inclusively, transparently, and effectively. By integrating perspectives from diverse stakeholders including government agencies, civil society, private sector actors, and community beneficiaries this approach fosters participatory decision-making, accountability, and evidence-based policy development. Participants in this course will gain practical skills in designing, implementing, and analyzing evaluations that balance competing interests while producing actionable insights. Key focus areas include stakeholder mapping, participatory tools, data triangulation, ethical considerations, and leveraging digital M&E technologies to enhance efficiency and reliability.

Multi-Stakeholder Evaluations Training Course equips professionals with the tools to navigate complex multi-stakeholder environments and drive high-impact outcomes. Participants will explore cutting-edge strategies for inclusive evaluation design, innovative engagement techniques, and robust reporting frameworks that influence policy and practice. Emphasis is placed on real-world case studies, practical exercises, and scenario-based learning to ensure participants can translate theory into practice. By the end of the course, attendees will confidently lead collaborative evaluations that enhance learning, accountability, and strategic decision-making in diverse sectors.
