Oracle Fusion Cloud Projects Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Oracle Fusion Cloud Projects is a cutting-edge, integrated project management solution designed to streamline project execution, enhance collaboration, and optimize resource utilization across organizations. Oracle Fusion Cloud Projects Training Course provides hands-on expertise in implementing and managing Oracle Fusion Projects, enabling professionals to efficiently handle budgeting, forecasting, project costing, and performance tracking. Leveraging industry best practices and real-world scenarios, learners gain a comprehensive understanding of project lifecycle management within the Oracle Cloud ecosystem.

Participants will explore advanced functionalities such as automated project costing, real-time analytics, seamless integration with financials and supply chain modules, and actionable insights for strategic decision-making. By the end of this course, learners will be equipped with the skills to drive efficiency, reduce operational risks, and deliver high-impact projects in a cloud-enabled enterprise environment.

Oracle Fusion Cloud Projects Training Course

Introduction

Oracle Fusion Cloud Projects is a cutting-edge, integrated project management solution designed to streamline project execution, enhance collaboration, and optimize resource utilization across organizations. Oracle Fusion Cloud Projects Training Course provides hands-on expertise in implementing and managing Oracle Fusion Projects, enabling professionals to efficiently handle budgeting, forecasting, project costing, and performance tracking. Leveraging industry best practices and real-world scenarios, learners gain a comprehensive understanding of project lifecycle management within the Oracle Cloud ecosystem.

Participants will explore advanced functionalities such as automated project costing, real-time analytics, seamless integration with financials and supply chain modules, and actionable insights for strategic decision-

making. By the end of this course, learners will be equipped with the skills to drive efficiency, reduce operational risks, and deliver high-impact projects in a cloud-enabled enterprise environment.

Course Duration

5 days

Course Objectives

1. Master Oracle Fusion Cloud Projects configuration and implementation techniques.
2. Understand project planning, budgeting, and forecasting within Oracle Fusion.
3. Learn resource management, allocation, and optimization strategies.
4. Develop expertise in project costing, billing, and revenue recognition.
5. Gain proficiency in real-time reporting and analytics using Fusion dashboards.
6. Implement project governance and compliance controls effectively.
7. Explore integration with Oracle Financials, HCM, and Procurement modules.
8. Understand advanced project performance metrics and KPIs.
9. Apply best practices for project lifecycle management in the cloud.
10. Conduct scenario-based simulations for complex project challenges.
11. Learn automation techniques to streamline project management processes.
12. Gain hands-on experience with Fusion Project Financials and Task Management.
13. Prepare for Oracle Fusion Project Cloud certification with practical exercises.

Target Audience

1. Project Managers and Program Managers
2. Business Analysts and Functional Consultants
3. Oracle Fusion Financial Consultants
4. IT Professionals and ERP Administrators
5. Project Accountants and Cost Controllers
6. Solution Architects and Implementation Leads
7. ERP System Integrators
8. Finance and Operations Managers

Course Modules

Module 1: Introduction to Oracle Fusion Cloud Projects

- Overview of Oracle Fusion Cloud Projects and Architecture
- Understanding Project Lifecycle Management (PLM)
- Project Costing, Billing, Resource Management
- Cloud Deployment and Configuration Basics
- Case Study: Implementing Fusion Projects for a mid-sized IT services company

Module 2: Project Planning and Budgeting

- Creating and managing project templates and tasks
- Resource allocation and role assignments
- Budget creation, approval workflows, and forecasting
- Setting up project baselines and financial plans
- Case Study: Budgeting and forecasting for a construction project

Module 3: Project Costing and Billing

- Cost collection, cost categories, and expenditure tracking
- Billing schedules, rules, and revenue recognition
- Managing unbilled receivables and invoice generation
- Integration with Oracle Financials for reporting
- Case Study: Billing automation for a consulting services project

Module 4: Resource Management

- Resource pools, skill mapping, and availability tracking
- Assigning resources to projects and tasks
- Timesheet entry, approvals, and validation
- Optimizing resource utilization across multiple projects
- Case Study: Resource optimization for a global marketing campaign

Module 5: Reporting and Analytics

- Real-time dashboards and project KPIs
- Standard and custom reporting in Fusion Cloud
- Financial performance analysis and variance tracking
- Using BI tools for predictive project insights
- Case Study: KPI monitoring for a product launch project

Module 6: Project Integration with Oracle Modules

- Integration with Oracle Financials, HCM, and Procurement
- Data flow and inter-module dependencies
- Automating cross-functional project approvals
- Troubleshooting integration issues
- Case Study: Integrating HR and finance data for a corporate IT project

Module 7: Advanced Project Controls and Governance

- Compliance management and audit trails
- Risk and issue tracking for projects
- Approvals, workflows, and change management
- Scenario planning for complex project portfolios
- Case Study: Risk mitigation for a large-scale infrastructure project

Module 8: Hands-on Simulation and Certification Preparation

- End-to-end project lifecycle exercises
- Real-world problem-solving using Oracle Fusion Projects
- Mock project implementation scenarios
- Preparation for Oracle Fusion Projects Cloud certification
- Case Study: Full-cycle project implementation from planning to billing

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
