Personal Financial Planning for Banks Training Course

Professional Development Training Course Outline

Category	Banking Institute	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Personal Financial Planning has become a strategic priority for banks seeking to deliver customer-centric financial solutions, wealth management services, financial wellness programs, and long-term client engagement. Personal Financial Planning for Banks Training Course equips banking professionals with advanced knowledge and practical tools to support customers in achieving their financial goals, investment objectives, retirement security, debt management targets, and wealth creation strategies. With the growth of digital banking, financial inclusion, AI-driven advisory services, and personalized banking experiences, financial institutions must strengthen their capabilities in delivering effective personal financial planning solutions.

This course provides participants with a practical understanding of financial planning frameworks, customer profiling, budgeting strategies, investment planning, risk management, insurance solutions, retirement planning, and behavioral finance principles. Through real-world banking case studies and interactive learning approaches, participants will develop the skills required to provide ethical, data-driven, and customized financial advisory services that improve customer satisfaction, loyalty, and lifetime value while supporting the bank’s growth objectives.

Programme Curriculum

Personal Financial Planning for Banks Training Course

Introduction

Personal Financial Planning has become a strategic priority for banks seeking to deliver customer-centric financial solutions, wealth management services, financial wellness programs, and long-term client engagement. Personal Financial Planning for Banks Training Course equips banking professionals with advanced knowledge and practical tools to support customers in achieving their financial goals, investment

objectives, retirement security, debt management targets, and wealth creation strategies. With the growth of digital banking, financial inclusion, AI-driven advisory services, and personalized banking experiences, financial institutions must strengthen their capabilities in delivering effective personal financial planning solutions.

This course provides participants with a practical understanding of financial planning frameworks, customer profiling, budgeting strategies, investment planning, risk management, insurance solutions, retirement planning, and behavioral finance principles. Through real-world banking case studies and interactive learning approaches, participants will develop the skills required to provide ethical, data-driven, and customized financial advisory services that improve customer satisfaction, loyalty, and lifetime value while supporting the bank's growth objectives.
