PPP Blended Finance Mechanisms Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships blended finance mechanisms are increasingly important for mobilizing private capital, development finance, institutional investment, and public resources for sustainable infrastructure and development projects. Public-Private Partnerships Blended Finance Mechanisms Training Course provides practical knowledge of blended finance structures, risk-sharing mechanisms, concessional finance, credit enhancement, guarantees, viability gap funding, impact investment, climate finance, development finance institutions, and innovative Public-Private Partnerships financing models. Participants will develop the ability to design bankable projects that attract private investment while achieving public-sector development objectives.

The course emphasizes strategic financial structuring, investment readiness, project preparation, financial risk allocation, sustainable finance, environmental and social considerations, and innovative capital mobilization. Through international case studies and practical exercises, participants will examine how governments, development partners, investors, lenders, and private-sector sponsors can combine financial instruments to improve project viability, reduce investment risks, and accelerate infrastructure delivery.

Programme Curriculum

Public-Private Partnerships Blended Finance Mechanisms Training Course

Introduction

Public-Private Partnerships blended finance mechanisms are increasingly important for mobilizing private capital, development finance, institutional investment, and public resources for sustainable infrastructure and development projects. Public-Private Partnerships Blended Finance Mechanisms Training Course provides practical knowledge of blended finance structures, risk-sharing mechanisms, concessional finance, credit enhancement, guarantees, viability gap funding, impact investment, climate finance, development finance institutions, and innovative Public-Private Partnerships financing models. Participants will develop the ability to

design bankable projects that attract private investment while achieving public-sector development objectives.

The course emphasizes strategic financial structuring, investment readiness, project preparation, financial risk allocation, sustainable finance, environmental and social considerations, and innovative capital mobilization. Through international case studies and practical exercises, participants will examine how governments, development partners, investors, lenders, and private-sector sponsors can combine financial instruments to improve project viability, reduce investment risks, and accelerate infrastructure delivery.

Course Objectives

By the end of the course, participants will be able to:

1. Understand blended finance principles and applications.
2. Analyze Public-Private Partnerships financing structures.
3. Design innovative capital mobilization strategies.
4. Evaluate concessional finance and investment instruments.
5. Apply financial risk-sharing mechanisms.
6. Develop bankable infrastructure projects.
7. Assess credit enhancement and guarantee instruments.
8. Integrate climate finance into project structures.
9. Evaluate viability gap funding requirements.
10. Apply sustainable finance and impact investment principles.
11. Strengthen project financial modelling and investment readiness.
12. Structure transactions involving development finance institutions.
13. Develop resilient and scalable blended finance strategies.

Organizational Benefits

- Improved infrastructure investment readiness.
- Stronger financial structuring capabilities.
- Better allocation of project risks.
- Increased access to private capital.
- Enhanced development finance coordination.
- Improved bankability of projects.
- Stronger investment decision-making.
- Better use of concessional funding.
- Increased climate and sustainable finance opportunities.
- More effective Public-Private Partnerships delivery.

Target Audiences

1. Public-Private Partnerships professionals and managers.
2. Government finance and infrastructure officials.
3. Development finance institution professionals.
4. Investment and commercial banking professionals.
5. Infrastructure investors and fund managers.
6. Project finance and transaction advisers.

7. Private-sector executives and project sponsors.
8. Development agencies and donor-funded programme professionals.

Course Duration: 10 days
