PPP Lifecycle Management Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Lifecycle Management Training Course provides a comprehensive framework for managing public-private partnership projects from project identification and feasibility assessment through procurement, financial close, construction, operations, contract management, monitoring, restructuring, and eventual handback. The course focuses on public-private partnerships governance, project lifecycle management, infrastructure development, value for money, bankability, risk allocation, financial modelling, procurement strategy, contract administration, performance management, and sustainable infrastructure investment.

Participants will develop practical capabilities to manage complex public-private partnership transactions while strengthening institutional capacity, stakeholder engagement, regulatory compliance, project governance, and long-term contract performance. Through international best practices, practical exercises, and global case studies, participants will learn how successful public-private partnership programmes are structured, procured, financed, monitored, and optimized to deliver measurable public value.

Programme Curriculum

Public-Private Partnerships Lifecycle Management Training Course

Introduction

Public-Private Partnerships Lifecycle Management Training Course provides a comprehensive framework for managing public-private partnership projects from project identification and feasibility assessment through procurement, financial close, construction, operations, contract management, monitoring, restructuring, and eventual handback. The course focuses on public-private partnerships governance, project lifecycle management, infrastructure development, value for money, bankability, risk allocation, financial modelling, procurement strategy, contract administration, performance management, and sustainable infrastructure investment.

Participants will develop practical capabilities to manage complex public-private partnership transactions while strengthening institutional capacity, stakeholder engagement, regulatory compliance, project governance, and long-term contract performance. Through international best practices, practical exercises, and global case studies, participants will learn how successful public-private partnership programmes are structured, procured, financed, monitored, and optimized to deliver measurable public value.

Course Objectives

By the end of the course, participants will be able to:

1. Apply public-private partnerships lifecycle management principles and international best practices.
2. Evaluate project identification, screening, prioritization, and feasibility requirements.
3. Develop robust public-private partnerships business cases and value-for-money assessments.
4. Apply strategic risk identification, allocation, mitigation, and monitoring techniques.
5. Assess financial viability, bankability, affordability, and commercial sustainability.
6. Design effective public-private partnerships procurement and tendering strategies.
7. Strengthen contract management, performance monitoring, and compliance systems.
8. Manage stakeholder engagement, institutional coordination, and governance structures.
9. Apply data-driven project monitoring and performance management techniques.
10. Manage variations, renegotiations, disputes, and contract restructuring.
11. Integrate sustainability, climate resilience, and environmental, social, and governance considerations.
12. Apply digital technologies to public-private partnerships project monitoring and reporting.
13. Manage transition, handback, termination, and post-project evaluation processes.

Organizational Benefits

- Improved public-private partnerships project governance and lifecycle control.
- Stronger project preparation, feasibility, and investment decision-making.
- Better risk allocation and financial sustainability.
- More effective procurement and transaction management.
- Enhanced contract performance and compliance.
- Improved infrastructure service delivery and accountability.
- Stronger institutional and stakeholder coordination.
- Greater value for money and long-term public-sector outcomes.

Target Audiences

1. Public-private partnerships unit professionals and managers.
2. Government officials and policy makers.
3. Infrastructure project managers.
4. Procurement and contract management professionals.
5. Finance, investment, and treasury professionals.
6. Legal, regulatory, and compliance specialists.
7. Consultants, advisers, and transaction specialists.
8. Private-sector infrastructure and investment professionals.

Course Duration: 5 days

Course Modules

Module 1: Public-Private Partnerships Lifecycle Framework

- Public-private partnerships lifecycle stages and governance.
- Project identification, screening, and prioritization.
- Institutional roles and decision-making structures.
