

PPP Market Sounding Techniques Training Course

Professional Development Training Course Outline

Category	General Training	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Public-Private Partnership Market Sounding Techniques Training Course provides practical, strategic, and market-focused skills for professionals responsible for developing, evaluating, structuring, procuring, and managing Public-Private Partnership projects. The course examines market sounding, investor engagement, private-sector consultation, market intelligence, project bankability, risk allocation, commercial feasibility, procurement strategy, and stakeholder engagement. Participants will learn how structured market sounding can test investor appetite, identify market constraints, improve project design, strengthen value-for-money assessments, and support evidence-based Public-Private Partnership decision-making.

The training emphasizes modern Public-Private Partnership market engagement approaches, including digital consultation, investor mapping, competitive dialogue, industry engagement, data-driven market analysis, transaction preparation, and confidential information management. Participants will explore international best practices and global case studies while developing practical tools for designing market sounding exercises that produce credible market intelligence without compromising procurement integrity, competition, transparency, or confidentiality.

Programme Curriculum

Public-Private Partnership Market Sounding Techniques Training Course

Introduction

Public-Private Partnership Market Sounding Techniques Training Course provides practical, strategic, and market-focused skills for professionals responsible for developing, evaluating, structuring, procuring, and managing Public-Private Partnership projects. The course examines market sounding, investor engagement, private-sector consultation, market intelligence, project bankability, risk allocation, commercial feasibility, procurement strategy, and stakeholder engagement. Participants will learn how structured market sounding can test investor appetite, identify market constraints, improve project design, strengthen value-for-money

assessments, and support evidence-based Public-Private Partnership decision-making.

The training emphasizes modern Public-Private Partnership market engagement approaches, including digital consultation, investor mapping, competitive dialogue, industry engagement, data-driven market analysis, transaction preparation, and confidential information management. Participants will explore international best practices and global case studies while developing practical tools for designing market sounding exercises that produce credible market intelligence without compromising procurement integrity, competition, transparency, or confidentiality.

Course Objectives

By the end of the course, participants will be able to:

1. Apply advanced Public-Private Partnership market sounding principles.
2. Design effective investor engagement and consultation strategies.
3. Conduct structured market intelligence and appetite assessments.
4. Evaluate private-sector capacity, capability, and investment interest.
5. Apply bankability and commercial feasibility concepts.
6. Identify market risks, constraints, and investment barriers.
7. Develop market sounding questionnaires and engagement tools.
8. Strengthen stakeholder mapping and communication strategies.
9. Apply procurement integrity, transparency, and confidentiality requirements.
10. Interpret investor feedback for project optimization.
11. Improve risk allocation and project structuring decisions.
12. Use data-driven insights to strengthen Public-Private Partnership transactions.
13. Develop actionable market sounding reports and recommendations.

Organizational Benefits

- Improved project bankability and investment readiness.
- Stronger private-sector participation and investor confidence.
- Better-informed project structuring decisions.
- Earlier identification of market constraints.
- Improved risk allocation and value for money.
- Stronger procurement planning and transaction preparation.
- Enhanced stakeholder engagement and communication.
- Reduced transaction uncertainty and project development risks.
- Better alignment between project design and market capacity.
- Increased competitiveness, transparency, and institutional credibility.

Target Audiences

1. Public-Private Partnership unit professionals.
2. Government infrastructure and investment officials.
3. Procurement and contract management specialists.
4. Project finance and investment professionals.
5. Infrastructure development managers.

6. Legal and regulatory professionals.
7. Consultants and transaction advisors.
8. Private-sector investors and developers.

Course Duration: 5 days
