PPP Program Management Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Program Management is a strategic discipline for planning, structuring, implementing, monitoring, and governing complex infrastructure and public service projects involving government institutions and private-sector partners. Public-Private Partnerships Program Management Training Course develops advanced capabilities in project governance, program management, infrastructure finance, risk allocation, stakeholder engagement, contract management, performance management, value for money, procurement strategy, and lifecycle management. Participants will explore practical frameworks for delivering sustainable Public-Private Partnerships programs while strengthening institutional capacity, accountability, transparency, and long-term public value.

The course focuses on modern Public-Private Partnerships program management practices, including digital transformation, portfolio management, financial modelling, risk analytics, performance dashboards, environmental and social governance, sustainable infrastructure, and strategic decision-making. Through practical exercises and global case studies, participants will learn how to coordinate multiple projects, manage program-level risks, align stakeholders, monitor outcomes, resolve implementation challenges, and improve the delivery of infrastructure and essential public services.

Programme Curriculum

Public-Private Partnerships Program Management Training Course

Introduction

Public-Private Partnerships Program Management is a strategic discipline for planning, structuring, implementing, monitoring, and governing complex infrastructure and public service projects involving government institutions and private-sector partners. Public-Private Partnerships Program Management Training Course develops advanced capabilities in project governance, program management, infrastructure finance, risk allocation, stakeholder engagement, contract management, performance management, value for money,

procurement strategy, and lifecycle management. Participants will explore practical frameworks for delivering sustainable Public-Private Partnerships programs while strengthening institutional capacity, accountability, transparency, and long-term public value.

The course focuses on modern Public-Private Partnerships program management practices, including digital transformation, portfolio management, financial modelling, risk analytics, performance dashboards, environmental and social governance, sustainable infrastructure, and strategic decision-making. Through practical exercises and global case studies, participants will learn how to coordinate multiple projects, manage program-level risks, align stakeholders, monitor outcomes, resolve implementation challenges, and improve the delivery of infrastructure and essential public services.

Course Objectives

By the end of this course, participants will be able to:

1. Apply advanced Public-Private Partnerships program management frameworks.
2. Develop strategic Public-Private Partnerships program portfolios.
3. Strengthen governance, accountability, and institutional coordination.
4. Evaluate project feasibility, value for money, and affordability.
5. Develop effective risk allocation and mitigation strategies.
6. Apply advanced infrastructure finance and financial modelling techniques.
7. Manage procurement, negotiation, and contract implementation.
8. Establish performance management and monitoring systems.
9. Apply stakeholder engagement and communication strategies.
10. Integrate sustainability, climate resilience, and environmental considerations.
11. Use digital tools and data analytics for program decision-making.
12. Manage program changes, disputes, and implementation challenges.
13. Optimize long-term Public-Private Partnerships portfolio performance.

Organizational Benefits

1. Improved Public-Private Partnerships program governance and accountability.
2. Stronger infrastructure investment planning and prioritization.
3. Improved risk identification, allocation, and mitigation.
4. Enhanced financial sustainability and value for money.
5. Better procurement and contract management outcomes.
6. Improved stakeholder coordination and institutional collaboration.
7. Stronger performance monitoring and reporting systems.
8. Increased transparency and evidence-based decision-making.
9. Improved resilience and sustainability of infrastructure programs.
10. Greater likelihood of successful Public-Private Partnerships program delivery.

Target Audiences

1. Public-Private Partnerships professionals and program managers.
2. Government infrastructure and investment officials.
3. Public-sector project and portfolio managers.

4. Infrastructure finance and investment professionals.
5. Procurement and contract management specialists.
6. Consultants, advisors, and transaction specialists.
7. Private-sector infrastructure executives and developers.
8. Development finance and institutional investment professionals.

Course Duration: 5 days
