PPP Strategic Risk Governance Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Strategic Risk Governance Training Course provides an advanced framework for strengthening risk governance, strategic decision-making, project resilience, institutional capacity, and long-term value creation across Public-Private Partnerships programs. The course explores enterprise risk management, governance frameworks, risk appetite, regulatory compliance, financial risk, operational risk, political risk, stakeholder management, climate resilience, cybersecurity, and emerging strategic risks affecting complex infrastructure and public service investments.

Participants will develop practical capabilities to identify, assess, allocate, monitor, mitigate, and govern risks throughout the Public-Private Partnerships lifecycle. Emphasis is placed on strategic risk intelligence, scenario planning, risk-based decision-making, governance assurance, performance monitoring, crisis preparedness, and international best practices. Global case studies provide practical insights into successful and challenging Public-Private Partnerships programs across transport, energy, healthcare, water, and social infrastructure.

Programme Curriculum

Public-Private Partnerships Strategic Risk Governance Training Course

Introduction

Public-Private Partnerships Strategic Risk Governance Training Course provides an advanced framework for strengthening risk governance, strategic decision-making, project resilience, institutional capacity, and long-term value creation across Public-Private Partnerships programs. The course explores enterprise risk management, governance frameworks, risk appetite, regulatory compliance, financial risk, operational risk, political risk, stakeholder management, climate resilience, cybersecurity, and emerging strategic risks affecting complex infrastructure and public service investments.

Participants will develop practical capabilities to identify, assess, allocate, monitor, mitigate, and govern risks throughout the Public-Private Partnerships lifecycle. Emphasis is placed on strategic risk intelligence, scenario planning, risk-based decision-making, governance assurance, performance monitoring, crisis preparedness, and international best practices. Global case studies provide practical insights into successful and challenging Public-Private Partnerships programs across transport, energy, healthcare, water, and social infrastructure.

Course Objectives

By the end of the course, participants will be able to:

1. Apply strategic risk governance frameworks.
2. Develop enterprise-wide risk management systems.
3. Strengthen Public-Private Partnerships governance structures.
4. Identify emerging strategic and systemic risks.
5. Conduct advanced risk assessment and prioritization.
6. Develop effective risk allocation strategies.
7. Integrate financial and commercial risk analysis.
8. Strengthen regulatory and compliance assurance.
9. Apply scenario planning and stress testing.
10. Improve stakeholder and reputational risk management.
11. Develop resilient risk monitoring systems.
12. Strengthen crisis response and business continuity.
13. Apply global Public-Private Partnerships risk governance practices.

Organizational Benefits

- Stronger strategic risk oversight
- Improved investment decision-making
- Better risk allocation outcomes
- Reduced project delays and cost overruns
- Enhanced regulatory compliance
- Stronger institutional resilience
- Improved stakeholder confidence
- Better fiscal risk management
- Enhanced project performance
- Sustainable infrastructure outcomes

Target Audiences

- Public-Private Partnerships professionals
- Government policymakers and regulators
- Public-Private Partnerships unit executives
- Infrastructure project managers
- Risk and compliance professionals
- Financial and investment specialists
- Legal and contract professionals

- Development finance professionals

Course Duration: 10 days

- Stakeholder risk mapping
- Public engagement strategies
- Reputation risk controls

- Communication governance
- Conflict escalation management
- Case study: European transport partnerships

Module 10: Climate and Environmental Risk

- Climate risk assessment
- Environmental risk governance
- Climate adaptation strategies
- Disaster resilience planning
- Sustainability risk reporting
- Case study: Netherlands water infrastructure

Module 11: Technology and Cybersecurity Risk

- Digital infrastructure risks
- Cybersecurity governance
- Data protection controls
- Technology resilience
- Digital risk monitoring
- Case study: Smart infrastructure in Asia

Module 12: Scenario Planning and Stress Testing

- Strategic scenario development
- Sensitivity analysis
- Stress testing frameworks
- Contingency planning
- Risk simulation techniques
- Case study: Global energy infrastructure

Module 13: Crisis Management and Business Continuity

- Crisis governance structures
- Emergency decision-making
- Business continuity planning
- Recovery strategies
- Crisis communication
- Case study: Global transport disruption

Module 14: Risk Monitoring and Governance Assurance

- Risk dashboards
- Key risk indicators
- Governance reporting
- Independent assurance
- Audit and review mechanisms
- Case study: United Kingdom infrastructure governance

Module 15: Integrated Strategic Risk Governance

- Integrated risk governance models
- Strategic risk action plans
- Executive risk reporting
- Continuous improvement systems
- Governance maturity assessment
- Case study: Global Public-Private Partnerships portfolio

Training Methodology

- Instructor-led strategic presentations
- Interactive workshops and group exercises
- Global Public-Private Partnerships case studies
- Risk assessment simulations and scenario analysis
- Practical governance framework development
- Peer discussions and knowledge-sharing sessions
- Executive-level problem-solving activities
- Facilitated risk management exercises
