

PPP Transaction Management Training Course

Professional Development Training Course Outline

Category	General Training	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Public-Private Partnership Transaction Management Training Course provides a practical and strategic framework for managing Public-Private Partnership transactions from project identification and feasibility assessment through procurement, negotiation, financial close, contract award, and implementation. The course develops advanced capabilities in Public-Private Partnership transaction structuring, project preparation, procurement strategy, risk allocation, financial modelling, value-for-money assessment, commercial negotiations, legal due diligence, stakeholder engagement, and transaction advisory. Participants gain practical knowledge for delivering bankable, transparent, competitive, and sustainable Public-Private Partnership projects aligned with national infrastructure priorities.

The programme focuses on modern Public-Private Partnership transaction management practices, including digital transformation, climate-resilient infrastructure, blended finance, institutional governance, private-sector participation, ESG considerations, contract management, and investment readiness. Through international case studies and practical exercises, participants learn how successful Public-Private Partnership transactions are structured, evaluated, procured, negotiated, financed, and brought to financial close while protecting public value and improving infrastructure delivery outcomes.

Programme Curriculum

Public-Private Partnership Transaction Management Training Course

Introduction

Public-Private Partnership Transaction Management Training Course provides a practical and strategic framework for managing Public-Private Partnership transactions from project identification and feasibility assessment through procurement, negotiation, financial close, contract award, and implementation. The course develops advanced capabilities in Public-Private Partnership transaction structuring, project preparation, procurement strategy, risk allocation, financial modelling, value-for-money assessment, commercial

negotiations, legal due diligence, stakeholder engagement, and transaction advisory. Participants gain practical knowledge for delivering bankable, transparent, competitive, and sustainable Public-Private Partnership projects aligned with national infrastructure priorities.

The programme focuses on modern Public-Private Partnership transaction management practices, including digital transformation, climate-resilient infrastructure, blended finance, institutional governance, private-sector participation, ESG considerations, contract management, and investment readiness. Through international case studies and practical exercises, participants learn how successful Public-Private Partnership transactions are structured, evaluated, procured, negotiated, financed, and brought to financial close while protecting public value and improving infrastructure delivery outcomes.

Course Objectives

By the end of the course, participants will be able to:

1. Apply advanced Public-Private Partnership transaction management principles and frameworks.
2. Develop effective Public-Private Partnership project preparation and transaction strategies.
3. Conduct feasibility, bankability, and value-for-money assessments.
4. Structure appropriate commercial, financial, and contractual arrangements.
5. Design competitive and transparent Public-Private Partnership procurement processes.
6. Apply sophisticated risk identification, allocation, and mitigation techniques.
7. Evaluate financial models, funding structures, and investor requirements.
8. Strengthen negotiation, due diligence, and financial-close capabilities.
9. Manage stakeholder engagement and institutional coordination.
10. Integrate ESG, climate resilience, and sustainability requirements.
11. Apply digital tools and data-driven approaches to transaction management.
12. Improve Public-Private Partnership contract award, implementation, and transition processes.
13. Develop transaction strategies that maximize public value and private investment.
