

Psychosocial Risks in the Workplace Training Course

Professional Development Training Course Outline

Category	Trade Unions	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Psychosocial risks in the workplace are increasingly recognized as a critical factor influencing employee wellbeing, organizational performance, and productivity. These risks include work-related stress, burnout, workplace bullying, harassment, excessive workload, poor leadership, job insecurity, and lack of work-life balance. In today's evolving corporate landscape shaped by hybrid work, digital transformation, and high-performance demands, organizations must prioritize mental health at work, employee wellbeing, occupational stress management, and psychological safety as strategic pillars for sustainable success.

This training course provides a comprehensive, practical, and evidence-based approach to identifying, assessing, and managing psychosocial hazards in the workplace. Psychosocial Risks in the Workplace Training Course equips leaders, HR professionals, and employees with modern tools for stress prevention, burnout mitigation, emotional resilience, workplace engagement, and risk control frameworks. By integrating global best practices, compliance standards, and real-world case studies, the program supports organizations in building healthier, safer, and more productive work environments.

Programme Curriculum

Psychosocial Risks in the Workplace Training Course

Introduction

Psychosocial risks in the workplace are increasingly recognized as a critical factor influencing employee wellbeing, organizational performance, and productivity. These risks include work-related stress, burnout, workplace bullying, harassment, excessive workload, poor leadership, job insecurity, and lack of work-life balance. In today's evolving corporate landscape shaped by hybrid work, digital transformation, and high-performance demands, organizations must prioritize mental health at work, employee wellbeing, occupational stress management, and psychological safety as strategic pillars for sustainable success.

This training course provides a comprehensive, practical, and evidence-based approach to identifying, assessing, and managing psychosocial hazards in the workplace. Psychosocial Risks in the Workplace Training Course equips leaders, HR professionals, and employees with modern tools for stress prevention, burnout mitigation, emotional resilience, workplace engagement, and risk control frameworks. By integrating global best practices, compliance standards, and real-world case studies, the program supports organizations in building healthier, safer, and more productive work environments.
