Road Safety in Post-Conflict and Humanitarian Settings Training Course

Professional Development Training Course Outline

Category	Traffic Management & Road Safety	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Road safety is a critical concern in post-conflict and humanitarian settings, where infrastructure damage, displaced populations, and unpredictable security conditions increase the risk of accidents and fatalities. Effective road safety interventions in these environments not only save lives but also enhance the delivery of humanitarian aid, improve mobility, and support post-conflict recovery. Road Safety in Post-Conflict and Humanitarian Settings Training Course leverages best practices, evidence-based strategies, and real-world case studies to equip participants with the skills necessary to assess, mitigate, and manage road-related risks in fragile contexts.

Participants will gain a comprehensive understanding of the unique challenges posed by post-conflict environments, including damaged roads, unregulated traffic, lack of emergency services, and coordination challenges among humanitarian actors. The course combines interactive sessions, scenario-based learning, and applied case studies to ensure that knowledge is not only theoretical but also actionable in the field. By the end of this course, participants will be capable of implementing context-specific road safety measures that protect vulnerable populations and support humanitarian operations.

Programme Curriculum

Road Safety in Post-Conflict and Humanitarian Settings Training Course

Introduction

Road safety is a critical concern in post-conflict and humanitarian settings, where infrastructure damage, displaced populations, and unpredictable security conditions increase the risk of accidents and fatalities. Effective road safety interventions in these environments not only save lives but also enhance the delivery of humanitarian aid, improve mobility, and support post-conflict recovery. Road Safety in Post-Conflict and

Humanitarian Settings Training Course leverages best practices, evidence-based strategies, and real-world case studies to equip participants with the skills necessary to assess, mitigate, and manage road-related risks in fragile contexts.

Participants will gain a comprehensive understanding of the unique challenges posed by post-conflict environments, including damaged roads, unregulated traffic, lack of emergency services, and coordination challenges among humanitarian actors. The course combines interactive sessions, scenario-based learning, and applied case studies to ensure that knowledge is not only theoretical but also actionable in the field. By the end of this course, participants will be capable of implementing context-specific road safety measures that protect vulnerable populations and support humanitarian operations.

Course Duration

5 days

Course Objectives

1. Understand the impact of post-conflict settings on road safety and mobility.
2. Analyze road traffic risks and vulnerabilities in humanitarian contexts.
3. Develop strategic road safety interventions tailored for fragile environments.
4. Apply risk assessment methodologies for road networks in conflict-affected areas.
5. Integrate community engagement and awareness campaigns into road safety programs.
6. Implement emergency response and accident management protocols in humanitarian zones.
7. Utilize data-driven tools and technology for monitoring road safety trends.
8. Promote collaboration between humanitarian agencies, local authorities, and NGOs.
9. Address pedestrian, cyclist, and vulnerable road user protection in fragile contexts.
10. Design capacity-building programs for local road safety actors.
11. Apply international road safety standards in post-conflict and humanitarian operations.
12. Evaluate the effectiveness of road safety interventions using case studies and KPIs.
13. Develop sustainable road safety strategies for long-term post-conflict recovery.

Target Audience

1. Humanitarian workers and field officers
2. Road safety engineers and planners
3. Government officials in post-conflict zones
4. NGO program managers and coordinators
5. Emergency response and disaster management personnel
6. Transport and logistics managers in humanitarian settings
7. Policy makers and advisors on infrastructure recovery
8. Community leaders and local advocacy groups

Course Modules

Module 1: Introduction to Road Safety in Post-Conflict Settings

- Overview of global road safety challenges in fragile contexts
- Impact of conflict on transport infrastructure
- Vulnerable road user identification
- Road safety statistics and trends in humanitarian crises
- **Case Study:** Road safety assessment in Syria post-conflict

Module 2: Risk Assessment and Hazard Mapping

- Techniques for traffic risk analysis in unstable areas
- Identifying high-risk zones for vehicles and pedestrians
- Integrating GIS and remote sensing for road safety mapping
- Prioritization of interventions based on risk severity
- **Case Study:** Road hazard mapping in South Sudan

Module 3: Designing Road Safety Interventions

- Engineering, enforcement, and education strategies
- Community-focused road safety initiatives
- Low-cost infrastructure solutions for damaged roads
- Incorporating safety measures in humanitarian logistics
- **Case Study:** Road safety infrastructure design in Afghanistan

Module 4: Emergency Response and Accident Management

- Accident reporting and tracking in fragile settings
- Coordination with local health and emergency services
- Trauma care and first responder training
- Incident command system adaptation for conflict zones
- **Case Study:** Post-accident response in Yemen

Module 5: Community Engagement and Awareness

- Developing culturally sensitive road safety campaigns
- Engaging local leaders and schools in safety education
- Behavior change strategies for drivers and pedestrians
- Social media and mobile platforms for awareness
- **Case Study:** Community-led road safety campaign in Iraq

Module 6: Policy, Standards, and Governance

- Applying international road safety regulations in fragile contexts
- Advocacy for policy reforms and enforcement mechanisms
- Coordination between NGOs, government, and local authorities
- Monitoring and evaluation frameworks
- **Case Study:** Policy alignment for road safety in the DRC

Module 7: Data-Driven Road Safety Solutions

- Collecting and analyzing road safety data in humanitarian settings
- Using mobile apps, sensors, and satellite imagery
- Key performance indicators for road safety interventions
- Reporting and decision-making tools for stakeholders
- **Case Study:** Data-based intervention in Mozambique

Module 8: Sustainable Road Safety Strategies

- Long-term road infrastructure planning and rehabilitation
- Integrating road safety into humanitarian and development projects

- Capacity-building and training for local stakeholders
- Financing and resource mobilization strategies
- **Case Study:** Road safety sustainability project in Lebanon

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
