

Social Listening for PR Training Course

Professional Development Training Course Outline

Category	General Training	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's hyper-digital ecosystem, Social Listening for Public Relations (PR) has become a critical capability for brands, agencies, and communication professionals seeking to manage reputation, track sentiment, and respond to crises in real time. With the rise of AI-driven analytics, real-time media monitoring, and omnichannel communication, organizations can no longer rely on traditional PR strategies alone. Social Listening for PR Training Course equips participants with advanced skills in social media intelligence, brand perception analysis, crisis detection, and audience behavior tracking across platforms such as X (Twitter), Instagram, TikTok, LinkedIn, and Reddit.

This program is designed to help PR professionals leverage big data insights, sentiment analysis tools, influencer mapping, and trend forecasting to drive strategic communication decisions. Participants will learn how to convert raw social conversations into actionable PR strategies, improve brand reputation management, and enhance stakeholder engagement using data-backed storytelling. The course blends theory, hands-on tools, and real-world case applications to prepare learners for modern digital-first PR environments where reputation is shaped in seconds and amplified globally.

Programme Curriculum

Social Listening for PR Training Course

Introduction

In today's hyper-digital ecosystem, Social Listening for Public Relations (PR) has become a critical capability for brands, agencies, and communication professionals seeking to manage reputation, track sentiment, and respond to crises in real time. With the rise of AI-driven analytics, real-time media monitoring, and omnichannel communication, organizations can no longer rely on traditional PR strategies alone. Social Listening for PR Training Course equips participants with advanced skills in social media intelligence, brand perception analysis, crisis detection, and audience behavior tracking across platforms such as X (Twitter), Instagram, TikTok,

LinkedIn, and Reddit.

This program is designed to help PR professionals leverage big data insights, sentiment analysis tools, influencer mapping, and trend forecasting to drive strategic communication decisions. Participants will learn how to convert raw social conversations into actionable PR strategies, improve brand reputation management, and enhance stakeholder engagement using data-backed storytelling. The course blends theory, hands-on tools, and real-world case applications to prepare learners for modern digital-first PR environments where reputation is shaped in seconds and amplified globally.
