Strategic PPP Planning Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Strategic Public-Private Partnerships planning is essential for governments, public institutions, infrastructure agencies, and private-sector stakeholders seeking to develop bankable, sustainable, and value-for-money infrastructure projects. Strategic Public-Private Partnerships Planning Training Course provides a practical framework for Public-Private Partnerships strategy development, infrastructure planning, project prioritization, feasibility assessment, risk allocation, financial structuring, stakeholder engagement, procurement planning, and long-term contract management. Participants will gain advanced knowledge of strategic infrastructure investment, Public-Private Partnerships governance, fiscal sustainability, project pipelines, and investment decision-making.

The course focuses on aligning Public-Private Partnerships programs with national development strategies, sector priorities, public investment plans, and sustainable development objectives. Participants will explore international Public-Private Partnerships models, emerging infrastructure finance trends, climate-resilient infrastructure, digital transformation, private-sector investment, and innovative financing mechanisms. Global case studies will demonstrate how successful Public-Private Partnerships programs can improve infrastructure delivery, public services, economic competitiveness, and long-term public value.

Programme Curriculum

Strategic Public-Private Partnerships Planning Training Course

Introduction

Strategic Public-Private Partnerships planning is essential for governments, public institutions, infrastructure agencies, and private-sector stakeholders seeking to develop bankable, sustainable, and value-for-money infrastructure projects. Strategic Public-Private Partnerships Planning Training Course provides a practical framework for Public-Private Partnerships strategy development, infrastructure planning, project prioritization, feasibility assessment, risk allocation, financial structuring, stakeholder engagement, procurement planning,

and long-term contract management. Participants will gain advanced knowledge of strategic infrastructure investment, Public-Private Partnerships governance, fiscal sustainability, project pipelines, and investment decision-making.

The course focuses on aligning Public-Private Partnerships programs with national development strategies, sector priorities, public investment plans, and sustainable development objectives. Participants will explore international Public-Private Partnerships models, emerging infrastructure finance trends, climate-resilient infrastructure, digital transformation, private-sector investment, and innovative financing mechanisms. Global case studies will demonstrate how successful Public-Private Partnerships programs can improve infrastructure delivery, public services, economic competitiveness, and long-term public value.

Course Objectives

By the end of the course, participants will be able to:

1. Develop strategic Public-Private Partnerships planning frameworks aligned with national priorities.
2. Evaluate infrastructure needs using evidence-based project prioritization.
3. Apply Public-Private Partnerships project screening and selection techniques.
4. Conduct strategic feasibility and value-for-money assessments.
5. Design effective Public-Private Partnerships governance and institutional frameworks.
6. Assess fiscal risks, contingent liabilities, and affordability.
7. Develop sustainable Public-Private Partnerships project pipelines.
8. Apply advanced risk identification, allocation, and mitigation strategies.
9. Integrate climate resilience and sustainability into infrastructure planning.
10. Strengthen stakeholder engagement and private-sector participation.
11. Apply innovative infrastructure finance and investment approaches.
12. Improve procurement and transaction-planning strategies.
13. Establish performance-based monitoring and evaluation frameworks.

Organizational Benefits

- Strengthens strategic infrastructure investment decision-making.
- Improves Public-Private Partnerships project prioritization and pipeline development.
- Enhances value-for-money and affordability assessment.
- Strengthens risk allocation and fiscal risk management.
- Supports sustainable and climate-resilient infrastructure development.
- Improves institutional governance and regulatory coordination.
- Enhances private-sector investment readiness.
- Strengthens procurement and transaction preparation.
- Promotes innovation in infrastructure finance.
- Improves long-term public service delivery and project performance.

Target Audiences

1. Government policy and infrastructure officials.
2. Public-Private Partnerships unit and project officers.
3. Infrastructure investment and development professionals.

4. Finance, treasury, and economic planning officials.
5. Project managers and infrastructure consultants.
6. Procurement and contract management professionals.
7. Private-sector investors and financial advisers.
8. Development finance and multilateral institution professionals.

Course Duration: 5 days
