# Tableau Data Analyst Program Training Course

Professional Development Training Course Outline

| | | | |
|---|---|---|---|
| **Category** | Business Intelligence | **Duration** | 5 Days |
| **Base Fee** | $1,500 USD | **Delivery Mode** | Online / On-site Hybrid |

## Course Introduction

Tableau has become the leading platform for interactive data visualization and business intelligence, empowering organizations to transform raw data into actionable insights. In the current data-driven era, professionals who can analyze complex datasets, build compelling dashboards, and derive strategic business insights are in high demand. Tableau Data Analyst Program Training Course equips learners with industry-relevant skills, from data preparation to advanced analytics, ensuring they are fully capable of making data-informed decisions in a competitive business environment.

This course combines hands-on training with real-world projects and case studies, offering practical exposure to Tableau Desktop, Tableau Prep, and Tableau Server. Participants will master essential techniques such as data blending, advanced calculations, and interactive dashboard design. By the end of the program, learners will gain the expertise required to excel as Tableau Data Analysts and contribute effectively to organizational decision-making, while aligning with the latest trends in business intelligence and data visualization.

## Programme Curriculum

**Tableau Data Analyst Program Training Course**

**Introduction**

Tableau has become the leading platform for interactive data visualization and business intelligence, empowering organizations to transform raw data into actionable insights. In the current data-driven era, professionals who can analyze complex datasets, build compelling dashboards, and derive strategic business insights are in high demand. Tableau Data Analyst Program Training Course equips learners with industry-relevant skills, from data preparation to advanced analytics, ensuring they are fully capable of making data-informed decisions in a competitive business environment.

This course combines hands-on training with real-world projects and case studies, offering practical exposure to Tableau Desktop, Tableau Prep, and Tableau Server. Participants will master essential techniques such as data blending, advanced calculations, and interactive dashboard design. By the end of the program, learners will gain the expertise required to excel as Tableau Data Analysts and contribute effectively to organizational decision-making, while aligning with the latest trends in business intelligence and data visualization.

**Course Objectives**

1. Understand Tableau fundamentals and data visualization principles.
2. Master Tableau Desktop for creating interactive dashboards.
3. Learn data blending, joining, and preparation techniques.
4. Apply advanced calculations and table calculations for analytics.
5. Perform data analysis using parameters, filters, and sets.
6. Build dynamic and insightful visualizations for business use cases.
7. Explore Tableau Prep for efficient data cleaning and transformation.
8. Integrate Tableau with multiple data sources including SQL, Excel, and cloud data.
9. Analyze large datasets with performance optimization techniques.
10. Develop storytelling dashboards for executive reporting.
11. Implement best practices in data governance and visualization.
12. Gain insights from real-world Tableau case studies.
13. Prepare for Tableau certification and professional growth in data analytics.

**Organizational Benefits**

- Improved data-driven decision-making across teams.
- Enhanced reporting and visualization efficiency.
- Reduced time to insights through automated dashboards.
- Standardized reporting practices and governance.
- Increased ROI from business intelligence investments.
- Better identification of trends and business opportunities.
- Increased employee skillsets in analytics and visualization.
- Scalable reporting for multiple departments.
- Improved collaboration and sharing of insights.
- Competitive advantage through actionable analytics.

**Target Audiences**

- Data Analysts aiming to upgrade skills.
- Business Intelligence professionals.
- Financial Analysts seeking visualization expertise.
- Marketing Analysts working with campaign data.
- IT Professionals managing data pipelines.
- Business Consultants enhancing client insights.
- Students aspiring for data analytics careers.
- Decision-makers leveraging dashboards for strategic planning.

**Course Duration:** 5 days

**Course Modules**

**Module 1: Introduction to Tableau**

- Overview of Tableau Desktop and Server
- Understanding the Tableau interface
- Connecting to various data sources
- Basic chart types and visualization concepts
- Hands-on exercises for beginner dashboards
- Case study: Visualizing sales data for a retail company

**Module 2: Data Preparation and Transformation**

- Data cleaning and formatting techniques
- Understanding data types and relationships
- Creating joins, unions, and blends
- Using Tableau Prep for automated transformations
- Handling missing values and anomalies
- Case study: Preparing customer data for analysis

**Module 3: Advanced Calculations and Analytics**

- Creating calculated fields and measures
- Using table calculations and LOD expressions
- Implementing parameters for dynamic analysis
- Advanced aggregation and summarization
- Analyzing trends and patterns using calculations
- Case study: Profit margin analysis for product categories

**Module 4: Filters, Sets, and Groups**

- Applying filters for focused analysis
- Creating sets for segmented data
- Grouping data for summarization
- Dynamic filtering using parameters
- Combining sets and groups for advanced reporting
- Case study: Customer segmentation for targeted marketing

**Module 5: Dashboard Design and Visualization**

- Principles of effective dashboard design
- Creating interactive and responsive dashboards
- Best practices for layout and formatting
- Using actions and tooltips for interactivity
- Performance optimization of dashboards
- Case study: Executive sales dashboard for decision-makers

**Module 6: Tableau Prep Advanced Features**

- Automating data preparation workflows
- Using scripts and calculations in Tableau Prep
- Scheduling data flows for regular updates
- Combining multiple sources efficiently
- Troubleshooting data errors and anomalies
- Case study: Streamlining HR data for performance evaluation

**Module 7: Data Governance and Best Practices**

- Establishing data governance in Tableau
- Maintaining consistent metrics and KPIs
- Security and user permissions management
- Documentation and version control practices
- Ensuring dashboard usability and accessibility
- Case study: Implementing governance for enterprise dashboards

**Module 8: Real-World Projects and Certification Preparation**

- End-to-end project development using Tableau
- Applying all skills in integrated business scenarios
- Review of Tableau certification exam topics
- Mock exercises and sample dashboards
- Feedback and improvement strategies
- Case study: Comprehensive business analysis project

**Training Methodology**

- Interactive instructor-led sessions
- Hands-on exercises and practical workshops
- Real-world case studies for applied learning
- Group discussions and collaborative projects
- Continuous assessments and quizzes
- Project-based learning with feedback

**Register as a group from 3 participants for a Discount**

**Send us an email: info@fineskilltrainingcenter.org or call** *+254769199797*

***Certification***

*Upon successful completion of this training, participants will be issued with a globally- recognized certificate.*

***Tailor-Made Course***

*We also offer tailor-made courses based on your needs.*

**Key Notes**

**a.** The participant must be conversant with English.

**b.** Upon completion of training the participant will be issued with an Authorized Training Certificate

**c.** Course duration is flexible and the contents can be modified to fit any number of days.

**d.** The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

**e.** One-year post-training support Consultation and Coaching provided after the course.

**f.** Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

## Upcoming Scheduled Sessions

| Start Date | End Date | Location | Price |
|---|---|---|---|
| **23 Nov 2026** | 27 Nov 2026 | Online | $1,000 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $1,500 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $3,000 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $3,000 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $6,000 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $4,500 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $6,000 |
| **23 Nov 2026** | 27 Nov 2026 | Physical | $6,000 |
