## Course Introduction

In today’s evolving global tax environment, organizations face growing pressure to uphold transparency, accountability, and ethical compliance through effective tax governance and sustainability reporting. Tax Governance & Sustainability Reporting Training Course explores the integration of tax strategies within the broader framework of Environmental, Social, and Governance (ESG) principles. Participants will gain practical insights into aligning tax operations with sustainability goals, corporate responsibility, and international best practices.

The course emphasizes how strong tax governance can enhance corporate reputation, mitigate compliance risks, and foster long-term stakeholder trust. With sustainability reporting becoming a global standard, participants will learn how to effectively design, implement, and communicate tax policies that align with the United Nations Sustainable Development Goals (SDGs) and OECD guidelines for responsible tax behavior.
