Tax Policy and Administration for Economic Development Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Tax policy and administration are vital drivers of sustainable economic development, fiscal stability, and inclusive growth. In today's fast-evolving global economy, governments, institutions, and businesses must align tax systems with modern practices to promote revenue mobilization, ensure compliance, and foster equitable distribution of resources. Tax Policy and Administration for Economic Development Training Course is designed to empower professionals with the skills to design, implement, and manage tax systems that enhance governance, transparency, and economic resilience.

Through innovative learning, participants will gain practical insights into taxation strategies, fiscal reforms, international tax standards, digital taxation, and compliance frameworks. The course bridges theory with practice, combining case studies, global best practices, and real-world examples to address critical challenges in tax policy. By the end of this course, participants will be equipped to enhance tax efficiency, strengthen public finance systems, and drive long-term economic growth.
