Tax Policy for Inclusive Growth Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Tax policy is a powerful tool for driving sustainable economic development, reducing inequality, and promoting inclusive growth. Tax Policy for Inclusive Growth Training Course equips participants with practical knowledge and analytical skills to design, evaluate, and implement effective tax reforms that foster social equity and fiscal sustainability. By focusing on progressive taxation, international tax cooperation, revenue mobilization, and digital economy taxation, the program empowers policymakers, tax administrators, and development practitioners to enhance revenue efficiency while safeguarding equity.

With a strong emphasis on global best practices, case studies, and real-world applications, the course provides a deep understanding of how tax policy shapes inclusive economic systems. Participants will explore contemporary issues such as climate taxation, wealth taxes, VAT reforms, tax incentives, and informal sector taxation. By the end of the program, attendees will be able to design fair, efficient, and growth-oriented tax systems that align with the Sustainable Development Goals (SDGs) and national development strategies.

Programme Curriculum

Tax Policy for Inclusive Growth Training Course

Introduction

Tax policy is a powerful tool for driving sustainable economic development, reducing inequality, and promoting inclusive growth. Tax Policy for Inclusive Growth Training Course equips participants with practical knowledge and analytical skills to design, evaluate, and implement effective tax reforms that foster social equity and fiscal sustainability. By focusing on progressive taxation, international tax cooperation, revenue mobilization, and digital economy taxation, the program empowers policymakers, tax administrators, and development practitioners to enhance revenue efficiency while safeguarding equity.

With a strong emphasis on global best practices, case studies, and real-world applications, the course provides a deep understanding of how tax policy shapes inclusive economic systems. Participants will explore contemporary issues such as climate taxation, wealth taxes, VAT reforms, tax incentives, and informal sector taxation. By the end of the program, attendees will be able to design fair, efficient, and growth-oriented tax systems that align with the Sustainable Development Goals (SDGs) and national development strategies.

Course Objectives

1. Analyze the role of tax policy in promoting inclusive and sustainable economic growth.
2. Evaluate progressive taxation systems and their impact on reducing inequality.
3. Design tax reforms that align with fiscal sustainability and SDGs.
4. Apply international tax frameworks to combat tax evasion and avoidance.
5. Assess the impact of tax incentives on investment and inclusive growth.
6. Strengthen capacity in revenue mobilization for developing economies.
7. Explore digital economy taxation challenges and opportunities.
8. Examine VAT reforms and their implications for inclusive fiscal policy.
9. Develop strategies for wealth and property taxation to address inequality.
10. Integrate environmental taxation to support green growth.
11. Formulate effective approaches for taxing the informal sector.
12. Apply empirical evidence and case studies to evaluate tax reforms.
13. Enhance policy dialogue and stakeholder engagement in tax reform processes.

Target Audience

1. Government policymakers and tax administrators.
2. Economists and fiscal policy advisors.
3. International development organizations.
4. Financial sector regulators.
5. Civil society organizations working on tax justice.
6. Private sector tax consultants and advisors.
7. Academic researchers in economics and public policy.
8. Graduate students specializing in taxation and development.

Course Duration: 5 days

Course Modules
