Training Course on Analysing Disrupted Health Systems

Professional Development Training Course Outline

Category	Public Health	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Health systems worldwide are increasingly vulnerable to disruption due to conflicts, natural disasters, pandemics, and socio-political instability. These disruptions challenge the delivery of essential health services, leaving populations at risk and straining limited resources. The Training Course on Analyzing Disrupted Health Systems equips participants with the tools to assess, navigate, and rebuild health systems in fragile contexts.

This course is tailored for professionals working in health, humanitarian aid, and policy development. Participants will gain an in-depth understanding of disrupted health systems' dynamics, explore evidence-based approaches to health system recovery, and learn to develop strategies that prioritize resilience and equity. Real-world case studies and interactive workshops ensure practical learning outcomes.

Addressing disrupted health systems requires a comprehensive approach that integrates data analysis, stakeholder collaboration, and innovative solutions. This course emphasizes the use of health system frameworks and methodologies to identify gaps, measure performance, and develop recovery plans tailored to the unique challenges of each disruption.

Training Course on Analysing Disrupted Health Systems

Introduction

Health systems worldwide are increasingly vulnerable to disruption due to conflicts, natural disasters, pandemics, and socio-political instability. These disruptions challenge the delivery of

essential health services, leaving populations at risk and straining limited resources. Training Course on Analyzing Disrupted Health Systems equips participants with the tools to assess, navigate, and rebuild health systems in fragile contexts.

This course is tailored for professionals working in health, humanitarian aid, and policy development. Participants will gain an in-depth understanding of disrupted health systems' dynamics, explore evidence-based approaches to health system recovery, and learn to develop strategies that prioritize resilience and equity. Real-world case studies and interactive workshops ensure practical learning outcomes.

Addressing disrupted health systems requires a comprehensive approach that integrates data analysis, stakeholder collaboration, and innovative solutions. This course emphasizes the use of health system frameworks and methodologies to identify gaps, measure performance, and develop recovery plans tailored to the unique challenges of each disruption.

Course Duration

5 Days

Course Objectives

1. Understand the causes and impacts of disrupted health systems.
2. Analyze the components and functions of health systems under stress.
3. Learn frameworks for assessing health system performance in crises.
4. Develop skills to map and address health service delivery gaps.
5. Explore innovative strategies for health system recovery and resilience.
6. Examine the role of governance and leadership in crisis management.
7. Understand the importance of equity and inclusivity in rebuilding health systems.
8. Utilize data and evidence-based approaches for decision-making.
9. Study real-world case studies of disrupted health systems and recovery efforts.
10. Formulate actionable plans to strengthen health systems during and after disruptions.

Organizational Benefits

1. Enhanced capacity to respond effectively to health system disruptions.
2. Improved service delivery during crises, benefiting affected populations.
3. Development of robust frameworks for health system assessment and recovery.
4. Strengthened collaboration with stakeholders in crisis situations.
5. Better allocation of resources in emergency and post-emergency settings.
6. Alignment with global health and humanitarian standards.
7. Increased resilience and adaptability to future disruptions.
8. Promotion of equity and inclusivity in health system planning.
9. Improved reputation as a proactive and responsible health service provider.
10. Empowered workforce equipped with practical skills and knowledge.

Target Participants

- Health professionals working in crisis-affected regions.
- Humanitarian aid workers and emergency response teams.
- Policy makers and government officials in health sectors.
- Health system researchers and academics.
- Representatives from non-governmental organizations (NGOs).
- Development practitioners focusing on health systems.
- Program managers and coordinators in healthcare projects.

Course Outline

Module 1: Introduction to Disrupted Health Systems

1. Definition and components of health systems.
2. Common causes of disruptions (conflicts, disasters, pandemics).
3. Frameworks for analyzing health systems.
4. Case study: Impact of natural disasters on health services.
5. Workshop: Identifying vulnerabilities in health systems.

Module 2: Assessing Health System Performance in Crises

1. Key indicators for evaluating health systems.
2. Data collection and analysis in disrupted environments.
3. Tools for performance measurement (e.g., WHO Health System Framework).
4. Case study: Health system assessments in post-conflict regions.
5. Practical exercise: Developing performance assessment reports.

Module 3: Addressing Health Service Delivery Gaps

1. Identifying and prioritizing health service needs.
2. Strategies for ensuring continuity of care.
3. Role of community health workers in crisis response.
4. Case study: Restoring primary healthcare in refugee camps.
5. Group activity: Designing a health service delivery plan.

Module 4: Building Resilient Health Systems

1. Principles of health system resilience.
2. Strengthening governance and leadership during crises.
3. Role of partnerships and stakeholder engagement.
4. Case study: Resilience-building in Ebola-affected countries.
5. Brainstorming session: Planning for resilient health systems.

Module 5: Promoting Equity and Inclusivity

1. Addressing disparities in access to health services.
2. Incorporating gender and cultural considerations.
3. Strategies for supporting marginalized populations.
4. Case study: Equity-focused interventions in disaster zones.

5. Interactive session: Designing inclusive recovery plans.

Module 6: Planning for Recovery and Sustainability

1. Developing long-term recovery strategies.
2. Transitioning from emergency to sustainable health systems.
3. Monitoring and evaluating recovery efforts.
4. Case study: Rebuilding health systems after major crises.
5. Workshop: Crafting a recovery and sustainability roadmap.

Training Methodology

The instructor led trainings are delivered using a blended learning approach and comprises of presentations, guided sessions of practical exercise, web-based tutorials and group work. Our facilitators are seasoned industry experts with years of experience, working as professional and trainers in these fields.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
