Training course on Employee Benefits Law and ERISA

Professional Development Training Course Outline

Category	Legal Institute	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Employee benefits constitute a significant portion of an employer's total compensation package, offering vital protections and financial security to employees and their families. This complex area of law, particularly in the United States, is heavily regulated by the Employee Retirement Income Security Act of 1974 (ERISA), along with provisions of the Internal Revenue Code (IRC), the Affordable Care Act (ACA), and other federal and state statutes. Navigating the intricate legal and regulatory landscape of pension plans, health and welfare plans, executive compensation, and other fringe benefits is paramount for employers, plan fiduciaries, human resource professionals, and legal counsel. Failure to comply with these stringent requirements can result in substantial penalties, litigation, and reputational damage. The continuous evolution of benefit design, healthcare reform, and investment strategies demands a profound understanding of ERISA's fiduciary duties, reporting obligations, and prohibited transactions. Training Course on Employee Benefits Law and ERISA is meticulously designed to equip participants with the advanced theoretical insights and practical tools necessary to design, administer, and maintain compliant and effective employee benefit plans, ensuring both legal integrity and competitive talent attraction and retention. This course will delve deeply into the foundational principles of ERISA, exploring its scope, key definitions, and the various types of plans it covers. Participants will gain crucial insights into the strict fiduciary duties imposed on plan administrators and asset managers, including the duties of loyalty, prudence, and diversification. Emphasis will be placed on understanding the intricate rules governing qualified retirement plans (e.g., 401(k)s, defined benefit plans), health and welfare benefit plans, and the unique challenges of executive compensation. By analyzing landmark court decisions, engaging with real-world compliance scenarios, and discussing contemporary issues such as cybersecurity for plans, data privacy, and the implications of mergers and acquisitions on employee benefits, attendees will develop the strategic acumen to effectively advise clients, mitigate legal risks, and ensure the sound and compliant operation of employee benefit programs, promoting both employee well-being and organizational financial health.
