Training Course on Longevity Economy and Business Opportunities

Professional Development Training Course Outline

Category	Pension and Retirement	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Training Course on Longevity Economy and Business Opportunities is designed for entrepreneurs, business leaders, policymakers, and researchers who seek to understand and capitalize on the emerging longevity economy. As global populations age, the longevity economy presents significant opportunities for innovation, investment, and growth across various sectors. This demographic shift is not just a challenge; it is a powerful driver of economic change and a catalyst for new business models. The longevity economy encompasses industries and services that cater to the needs of older adults, including healthcare, technology, finance, housing, and lifestyle products. With advancements in healthcare and technology, people are living longer, healthier lives, which increases the demand for products and services that enhance quality of life and promote independence. This course will explore the dynamics of the longevity economy, the opportunities it presents for businesses, and the strategies for successfully engaging with this growing market. Participants will learn about the unique needs and preferences of older adults, the role of innovation in addressing these needs, and how to develop sustainable business models that thrive in the longevity economy. Through a combination of theoretical insights, case studies, and practical applications, attendees will gain the knowledge and skills necessary to navigate and succeed in this emerging landscape.

Programme Curriculum

Training Course on Longevity Economy and Business Opportunities

Introduction

Training Course on Longevity Economy and Business Opportunities is designed for entrepreneurs, business leaders, policymakers, and researchers who seek to understand and capitalize on the emerging

longevity economy. As global populations age, the longevity economy presents significant opportunities for innovation, investment, and growth across various sectors. This demographic shift is not just a challenge; it is a powerful driver of economic change and a catalyst for new business models. The longevity economy encompasses industries and services that cater to the needs of older adults, including healthcare, technology, finance, housing, and lifestyle products. With advancements in healthcare and technology, people are living longer, healthier lives, which increases the demand for products and services that enhance quality of life and promote independence.

This course will explore the dynamics of the longevity economy, the opportunities it presents for businesses, and the strategies for successfully engaging with this growing market. Participants will learn about the unique needs and preferences of older adults, the role of innovation in addressing these needs, and how to develop sustainable business models that thrive in the longevity economy. Through a combination of theoretical insights, case studies, and practical applications, attendees will gain the knowledge and skills necessary to navigate and succeed in this emerging landscape.

- Discuss the importance of stakeholder engagement in business development.

- Identify key stakeholders in the longevity ecosystem.
- Explore strategies for effective communication and collaboration.
- Analyze case studies of successful stakeholder engagement initiatives.
- Review tools for measuring stakeholder sentiment.

Module 8: Promoting Age-Friendly Practices

- Discuss the importance of creating age-friendly environments.
- Explore design principles for age-friendly products and services.
- Analyze the role of community engagement in promoting age-friendly practices.
- Identify best practices for fostering inclusivity and accessibility.
- Review case studies of organizations promoting age-friendly initiatives.

Module 9: Regulatory Considerations for Longevity Businesses

- Understand the regulatory landscape affecting businesses in the longevity economy.
- Discuss compliance requirements in healthcare, finance, and technology sectors.
- Explore the implications of regulations on product development and marketing.
- Identify best practices for navigating regulatory challenges.
- Review case studies of organizations addressing regulatory issues.

Module 10: Technology Integration in the Longevity Economy

- Explore the role of technology in enhancing products and services for older adults.
- Discuss innovations in telehealth, wearable devices, and smart home technologies.
- Analyze the impact of digital literacy on technology adoption among older adults.
- Identify best practices for integrating technology into business strategies.
- Review case studies of technology-driven solutions.

Module 11: Future Trends in the Longevity Economy

- Analyze emerging trends in the longevity economy and their implications.
- Discuss the impact of demographic changes on market demands.
- Explore opportunities for innovation and entrepreneurship.
- Identify challenges and opportunities in the evolving landscape.
- Engage in discussions on the future of the longevity economy.

Module 12: Actionable Strategies for Business Development

- Develop actionable strategies for launching and scaling businesses in the longevity market.
- Discuss the importance of a strategic approach to market entry.
- Explore tools and resources for business planning.
- Identify best practices for measuring success and impact.
- Review case studies of successful strategy implementation.

Training Methodology

- **Interactive Workshops:** Facilitated discussions, group exercises, and problem-solving activities.
- **Case Studies:** Real-world examples to illustrate successful community-based surveillance practices.
- **Role-Playing and Simulations:** Practice engaging communities in surveillance activities.
- **Expert Presentations:** Insights from experienced public health professionals and community leaders.
- **Group Projects:** Collaborative development of community surveillance plans.

- **Action Planning:** Development of personalized action plans for implementing community-based surveillance.
- **Digital Tools and Resources:** Utilization of online platforms for collaboration and learning.
- **Peer-to-Peer Learning:** Sharing experiences and insights on community engagement.
- **Post-Training Support:** Access to online forums, mentorship, and continued learning resources.
